LEASING WIRE TO TRIBUNE
COPENHAGEN, Sept. 17.—General Alexieff, chief of staff of the Russian army, has committed suicide by shooting himself, according to a Petrograd despatch to the Syddevenska Dagblad today.
The shooting took place following an interview which General Alexieff had with Premier Kerensky, the despatch stated.
It was General Alexieff who went to General Korniloff's headquarters and put the revolutionary leader under arrest last week. Alexieff was formerly commander-in-chief of the Russian armies.

RUSSIAN ARMY DRIVES BACK TOWARD RIGA
LEASING WIRE TO TRIBUNE
WASHINGTON, Sept. 17.—The Russian army is driving back toward Riga along a wide front. Within the last five days it has advanced more than seven miles, the Russian embassy announced today. The whole Russian military establishment is being reorganized under General Alexieff and discredited commanders are being ousted.
First official cables from Petrograd to the embassy received today.

Will Not Seize Any Food From American Homes

An untraceable rumor that the government intends to take canned and dried foods from homes persists and has spread to such an extent that the Department of Agriculture today placed an explicit and official denial in the hands of every county agent and representative with instructions to give it the widest publicity. The government never has contemplated commandeering foods from the homes in any sense and the persistence of the rumors leads officials to believe that its basis probably may be found in propaganda to hinder food conservation and thereby continue high prices.

Woman in Jail As Gem Thief From Berkeley

BERKELEY, Sept. 17.—A search for more than three weeks to which the police of the whole State have been instigated by Miss Ella Kleinschmidt, of 2346 Claremont, resulted today in the arrest at Los Angeles of Mrs. Alama Thebaud, on a charge of robbery, based on the disappearance of three diamond rings valued at more than \$500 from the Kleinschmidt residence while she was a guest there. The woman under arrest, according to word received here, has been engaged as a variety performer at Los Angeles cafes. She formerly was with a cafe in San Francisco.
According to Miss Kleinschmidt she and Mrs. Thebaud became acquainted shortly after the latter's marriage in a convent in Alameda. Mrs. Thebaud, according to her accuser, pleaded that she was in desperate financial straits and was taken into the Kleinschmidt home out of sympathy until her husband could find employment. She left the Kleinschmidt home about a month ago and, according to Miss Kleinschmidt, the discovery of the theft of the jewels was made soon afterward. A state-wide search for the missing girl was immediately instituted and resulted in her apprehension in Los Angeles today. She will be brought here to face the charge. She is said to be the daughter of Arthur Brander of San Francisco. She was a Mrs. Gooding before her marriage to Thebaud, whose occupation is not known here.

NO SUBMARINE

WASHINGTON, Sept. 17.—The navy department, after as complete an investigation as is possible, is satisfied there is no foundation for reports of a hostile submarine off the New England coast.

TOKYO, Sept. 17.—Japan has agreed to loan Russia \$24,500,000 for use in redemption of bonds and payment for munitions.

GERMAN SPY PLOT FOILED IN ISLANDS

Filipino Insurrection Is Laid to Kaiser's Agent; Secret Service Men Find Proof in Notes

Teutons Write "Regrets" to Sweden; U. S. Is Appealed to for Wheat Shipments

By Carl D. Groat.
UNITED PRESS STAFF CORRESPONDENT.
WASHINGTON, Sept. 17.—That German intrigue has stretched out its talons into the Philippine islands and sought to create insurrection there was learned today by the United Press.
Conrad Andre, German vice-consul for Cebu, Manila and other islands, was detained on a charge of trying to create a "disturbance," which was in reality an insurrection. Taken to Manila to escape an angry mob, Andre was held there for some time and then released on account of positive evidence, though he is still under careful government watch.
Andre surrounded himself with a number of Filipinos and sought to create a "disturbance" by promising the Filipinos, among other things, any white woman in Cebu they wanted if they would rise against the Americans. This was last April, shortly after the United States entered the war. White agents of the situation became known the residents of Cebu were so incensed that there was talk of lynching and Andre had to be hurried out of town to escape violence.
In addition to the insurrection, Andre was suspected of trying to establish a submarine base in an out-of-the-way corner of the islands. Subsequently a ship bearing a complete machine shop outfit was detained off the islands.
SECRET DOCUMENTS ARE PHOTOGRAPHED
At one time in the course of Andre's machinations he traveled around the islands on an American ship, bearing a trunk full of papers which he did not wish British naval vessels to know about. The papers, however, were released by the American government and the pictures are said to be in the possession of the American government.
Andre, the youngest of the consuls in Cebu—the second city in the Philippine Islands—has been particularly active in building up German trade. He was agent for the North German Lloyd.

LIBERALS TO ASK CLOSER REGULATION

STOCKHOLM, Sept. 17.—At a great Liberal meeting here today a resolution proposed by Professor Edén, leader of the Liberal party in the second chamber, was unanimously adopted to the effect that meeting adopted to the effect that the Swedish foreign office was not in a position to deny the assertion that it had forwarded cipher telegrams in ignorance of their contents, which contents when revealed awoke the just abhorrence of all Swedes.
The resolution vigorously demanded that the government immediately take all necessary measures to demonstrate to the Swedish people its determination to maintain towards all belligerents absolute neutrality.
The present whereabouts of Folke Cronholm, the Swedish chargé d'affaires at Mexico City, mentioned in the correspondence recently given out in Washington (has having been employed by the German minister to Mexico) convey information to the Berlin foreign office is unknown. The Swedish foreign office. He was placed on the unattached list upon his recall from Mexico last December and was given no other post.

GERMANS SEND NOTE; TELL OF REGRETS

STOCKHOLM, Sept. 17.—Germany has sent a note to Sweden expressing regret for the disagreeable incident resulting from the transmission of cablegrams from Buenos Aires, according to the Nyd Dagbladet. The German foreign office also thanked the Swedish government for its advice and expressed regret that the contents of messages from Count Von Luxburg were unknown to the Swedish envoy at Buenos Aires.
The note stated that Germany had that they must not resist any attempt to force them to reveal to the Swedish government the contents of their code telegrams.

PROTEST NEW RULE; MAY MEAN FAMINE

WASHINGTON, Sept. 17.—Scandinavian representatives here, particularly the Swedes, pleaded today that the new prohibition on wheat exports will bring their nations to the brink of starvation. The Swedes declared that their nation will be the first to feel the pinch of famine.

Federal Government Delays in Taking Action; Is to Investigate

ANGRY MOBS OF STRIKERS STONE CARS ATTACK MEN

Iron Workers Parade to Labor Temple; Check Cars and Beat Platform Men on Way

Calls Sent for Police; Two Are Hurt; Arrests Made; Appeal for Protection Sent to Chief

ST. FRANCISCO, Sept. 17.—Rioting in connection with the street car strike became widespread in two large districts of the city as soon as the strike of 25,000 iron workers in shipyards started and thousands of union men from the shipyards scattered throughout the city. At least two were seriously injured and three arrests were made. Attacks on street cars were made simultaneously at eight separate points by striking iron workers. Cars were stoned, crews dragged from cars, gangs surrounded cars and non-union motormen and conductors were intimidated.
Four thousand iron workers leaving the Union Iron Works and marching toward the Labor Temple were charged by the police with causing the rioting. As soon as the iron workers' strike started the United Railroads appealed to the police for protection.

RESERVES RUSHED TO QUELL DISORDERS

Reserves were rushed to the scene. Two hundred and fifty striking iron workers were forced into the Labor Temple and refused permission by the police to leave. Hundreds of other iron workers scattered about the city stoning cars. Riot calls followed thick and fast, totaling, with the six early morning riots, fourteen within two hours. Police in automobiles are speeding about the districts of worst disorder and the United Railroads announced that calls for help were coming from their men from all parts of the city.
A large number of strikers obtained automobiles and automobile trucks and paraded Mission street, shouting at the carmen as they passed. Each car is being followed by a machine loaded with officers and has a private guard in addition to the regular crew.

STREET CAR DERAILED; CREW IS ATTACKED

A car was derailed on the Haight street line as it was coming down the hill at Octavia and Market streets. The car crew jumped and were being beaten while the police arrived. John Gibbon, George Rayner and Peter Erickson were arrested.

The principal outbreaks have been in the Bush street district along Haight. Frank Duval, Edward Farrell and James Cartwright were removed to the Central Emergency hospital with severe lacerations of the head and face and six men were arrested by the police from the Bush street station.
Conductor E. M. Bransford was struck in the face with a rock, which broke his glasses. He received a severely lacerated face.
Cars are almost deserted in the Mission district and the police fear a serious outbreak at any time.
At a conference with Chief White this morning the United Railroads officials were joined by Frank Drew, of the law and order committee of the Chamber of Commerce, and E. K. McIntosh, vice-president of the Bank of California. After the conference Superintendent Von Phil said that the usual night service as planned yesterday would be inaugurated tonight. A request was made to the chief that he call the 1200 additional policemen available, as Von Phil deemed the present police protection inadequate.
Chief White said that adequate police protection to cope with any situation that might arise would be had.
Charles Sweeney, Martin Jenkins and A. Urban were arrested for stoning a car at McAllister street, near Fillmore.

Strike Situation in Brief

Union men from the following organizations, to the number of 24,000, walked out at 9 o'clock this morning in all parts of bay district, after demands for higher wages by metal trades had been refused by employers:
Blacksmiths and Helpers No. 188, Boilermakers No. 6, Brass and Chandelier Workers No. 158, Bridge and Structural Iron Workers No. 31, Cement Workers No. 1, Electrical Workers No. 6, Electrical Workers No. 537, Foundry Employees, Gas and Electric Fixture Hangers No. 160, Hoisting Engineers No. 59, Housepainters and Iron Workers No. 78, Iron, Tin and Steel Workers No. 5, Machinists No. 68, Metal Polishers, Millmen No. 122, Millwrights No. 766, Molders No. 161, Patternmakers, Pipe Drivers, Bridge and Structural Iron Workers, Sheet Metal Workers No. 95, Sheet Metal Workers No. 104, Steamfitters and Helpers, Steamfitters No. 509, Ship Caulkers, Joiners and Carpenters, Wrights and Boat Builders.

Ship Painters.
One hundred and twenty industrial concerns tied up with membership in two main employers' organizations, as follows:
California Metal Trades Association, 98 companies.
California Foundry Association, 24 companies.
Government contracts halted as follows:
Union Iron Works, \$100,000,000.
Moore & Scott Co., \$25,000,000.
Other concerns, \$25,000,000.
Private contracts, \$50,000,000.
Total, \$200,000,000.
The wages demanded by the various crafts follow:
Machinists, \$6; molders, \$4; boiler-makers, \$7; stationary engineers, \$6; stationary firemen, \$120 a month; sheet metal workers, \$6; copper-smiths, \$4; shipyard laborers, \$3.50; electrical workers, \$4; asbestos workers, \$4; shipwrights, \$4; metal polishers, \$4; shipbuilders, \$4; joiners, \$4; structural iron workers, \$4; shipyard carpenters and pump, \$110 a month; pipefitters, \$4; ship painters, \$5; shipfitters, \$4.
No conferences scheduled by either side for today.
Federal Shipping Board delaying action until Seattle strike is settled.

VIOLENCE INCREASES WHEN STRIKE BEGINS

Soldiers Held in Readiness Should the Rioting Spread; No Trouble Here

Shortly after the walkout of iron workers rioting broke out in many parts of San Francisco. Up to noon a dozen cars of the United Railroads, whose platform men have been on strike for a month, had been partially wrecked. Half a dozen street cars men had been beaten, two of them seriously. A bomb containing dynamite caps was also exploded under one street car in the Mission district, badly damaging it.
The gravity of the situation was indicated by a report widely circulated this afternoon that orders had been issued at the Presidio for soldiers to be in readiness for a call should they be needed to preserve order.
Striking iron workers mounted soap boxes and talked to their fellow workers on the street corners. One said:
"They (the Union Iron Works) are selling the government vessels that cost them \$200,000 to build for a million and a half. The government is loaning hundreds of millions to public like Russia, why are we not entitled to our share. We did not strike through disloyalty and our country comes first, but our families must live and we cannot support them on several hours wage."
VIOLENCE ON THIS SIDE OF BAY
There was no display of violence in Oakland or Alameda.
Officials of the Red River Lumber Company believe the fire was of incendiary origin. Shortly before 3 a. m., when the fire started, an automobile was seen to leave the company's yards, and a few moments later the whole south end of the yard burst into flame simultaneously. The fire quickly swept through the millions of feet of lumber in the yards. General Manager R. F. Pray and Willis Walker, a member of the firm, were summoned, and three general alarms summoned the 3000 employees of the plant.

Today, while the average wage demanded is \$6 a day.
The walkout was simultaneous in San Francisco and Alameda county shipyards. The 2000 men in the Oakland and San Francisco plants of the Moore & Scott Iron Works, the second largest company affected by the strike, and in the Oakland and San Francisco plants of the Union Iron Works, the largest, quit work at the same time as men in scores of smaller yards and automobile, machine shops and other concerns walked out.
The employers in the shipbuilding plants will not attempt to employ non-union men but will leave their plants closed down. It was stated today. Smaller concerns may try to operate with non-union men.
MANY SMALLER FIRMS AFFECTED BY STRIKE
J. J. Tynan, of the Union Iron Works, declared that the strike is an effort to entangle the industrial life of San Francisco with the strike of 1400 platform men of the United Railroads.
The strike of iron workers and machinists has seriously affected the smaller concerns. Eight mechanics employed by the W. J. Gallagher Company, funeral livery contractors, walked out this morning and a number of interments were held up when the majority of the chauffeurs struck in sympathy. Gallagher increased his pay to \$6, the union scale demanded, and the men went back to work.
There was a rumor this morning that the employees of the Standard Oil Company in Richmond were to strike in connection with the strike of the shipyard employees, but this was denied in Richmond, both by employees and employers.
It was explained that the rumor probably was started as the result of the strike of eleven men employed at the Santa Fe foundry in Richmond, a branch of an Oakland institution, the men in Richmond, both by employees and employers of which went out.

Flames Sweep Lumber Plant; Million Loss

Wilson Back at Work; War Bills Speeded

BY UNITED PRESS
LEASING WIRE TO TRIBUNE
WESTWOOD, Cal., Sept. 17.—One million dollars damage was done today by a fire which destroyed two-thirds of the lumber stock of the Red River Lumber Company and threatened the plant itself here. The yards of the company were swept by flames for several hours and 50,000,000 feet of lumber destroyed.
The fire, which began at 3 a. m., endangered the entire plant, but at 10 a. m. was brought under control and confined to the company's yards. Officials of the Red River Lumber Company believe the fire was of incendiary origin. Shortly before 3 a. m., when the fire started, an automobile was seen to leave the company's yards, and a few moments later the whole south end of the yard burst into flame simultaneously. The fire quickly swept through the millions of feet of lumber in the yards. General Manager R. F. Pray and Willis Walker, a member of the firm, were summoned, and three general alarms summoned the 3000 employees of the plant.

BY UNITED PRESS
LEASING WIRE TO TRIBUNE
WASHINGTON, Sept. 17.—President Wilson was back at his desk today to find war work far advanced and Congress showing signs of early adjournment. After ten days' rest, a cruise on the Mayflower and a visit with Colonel House, the President is feeling fit.
One of the biggest jobs ahead of the President this week is determination of a fair retail price on bituminous and anthracite coal. His proclamation is expected before October 1. This President also will pass on recommendations for State fuel administration to work under Federal Administrator Garfield. A gross margin of from 10 to 20 per cent for retail coal dealers is understood to be favored by Garfield. This margin includes the retailers' overhead expenses, hauling charges and profit. The consumer who carts away his own coal probably will receive a slight reduction.

WALKOUT PARALYZES SHIPYARDS ABOUT BAY

Strike Resolutions Adopted by 24 Unions in Session Yesterday; Tools Are Dropped

Men Decline to Observe Agreement made by the national Leaders With Government

Twenty-four thousand ironworkers, employed in the metal trades of the San Francisco bay district quit work at 9 o'clock this morning, completely tying up federal shipbuilding contracts estimated at \$150,000,000, an airplane factory, a war tractor concern and nearly 100 foundries, shops and industries of various kinds.
Coincidentally with the walkout has come word from Washington that the government was taking no steps to avert the strike until after the settlement of labor disturbances in Seattle and the Northwest. Semi-official action was indicated, however, in the request made by the Federal Shipping Board to the Department of Labor to take up the entire shipbuilding dissection on the Pacific Coast.
The walkout today affected primarily the Union Iron Workers, but promptly a 9 o'clock walkout was announced by the Moore & Scott concerns on both sides of the bay and the Hanlon Shipyard Company. In each of these yards the men came to work at 8 o'clock, secured their tools and personal belongings, promptly a 9 o'clock walkout was announced. At the Hall-Scott Motor Works in Berkeley the men did not go out. There is a guard around the plant and no attempt has been made to induce the men to strike. It is understood, however, that there exists an agreement that pledges the men not to strike until after midnight tonight, and there is a likelihood that the plant will be closed down tomorrow.
The employees of the Best Steel Casting Company of Oakland went out this morning. About 400 men were employed at this plant.
The 350 employees of the C. L. Best Gas Tractor Company of San Leandro, manufacturers of war tanks, also went out.
TWENTY-FIVE UNIONS PASS STRIKE VOTE
The strike vote was taken yesterday when members of twenty-five unions affiliated with the metal trades met and voted to strike unless their wage demands were met by this morning. About 9 o'clock this morning the text of this vote was submitted to the California Metal Trades Association, the organization of corporation heads, but this body refused to grant the request for additional schedules. Labor leaders assembled last night also refused to grant the request of the United States Emergency Fleet Corporation to remain at work until labor troubles in the Northwest were settled.
The basis of the shipping board's request is based on the fact that the northwest difficulties are approaching a solution. Hopes are expressed that by the end of the week the trouble will be over and some working heads that will be satisfactory to both parties established. This settlement, when determined, is to be used by the government as a basis for adjustment of troubles in the bay district and other labor troubles on the Pacific Coast.
That the Federal Government may step into the situation with the

circulation figures of newspapers were taken with a grain of salt because many unscrupulous publishers used inflated figures.

The Audit Bureau of Circulations, composed of newspapers, periodicals, advertising agencies and advertisers, employs experts to audit circulations and verify claims.

Reputable newspapers all over the country are members of the A-B-C and welcome this thorough investigation of their circulations.

The OAKLAND TRIBUNE is the only newspaper published in Alameda County which is a member of the Audit Bureau of Circulations.

JURORS ARE EXCUSED IN OXMAN CASE

TRUSTEES BUREAU
SAN FRANCISCO, Sept. 17.—The Oxman trial was resumed in Judge Dunne's court this morning with the examination of prospective jurors taken from the new panel of 100 taken from the Saturday, M. P. 100. The first juror temporarily passed, which filled the box.
Peremptory challenges were then exercised by Prosecutor Raymond Benjamin, who accused M. Harman, 628 Golden Gate avenue, Attorney Shortridge, for Oxman, challenged John G. McAuliffe. The prosecution in their turn challenged Maurice T. O'Connor, 438 Kearny street.
The box was filled by the following: J. J. Sullivan, 117 Frederick street; Hendrich Bower, 431 Seventeenth street; Michael Rhigetti, 1463 Sacramento street. Rhigetti is a personal friend of A. B. Blanch, assistant district attorney, and brother-in-law of District Attorney Pickert. In spite of this was accepted by both sides. Thomas Alford, 125 Mono street, an ex-policeman, was excused when he said he had a fixed opinion that only evidence of a most positive nature would remove.
Cases of defendants in the bomb plot, set for trial today before Judge Dunne, were continued until next Monday on the statement of Assistant District Attorney Harry Michaels, who said that Pickert had elected to try Israel Weinberg next and would go to trial on that day on the completion of the Oxman matter. These cases were also called in Judge Griffin's court as a precaution against their being sent down too far on the calendar, and when they appeared before him were set down for October 1.

ASK REGULATION

WASHINGTON, Sept. 17.—President Wilson will be asked to make a modification in the wheat price fixed so that alleged discriminations against the Northwestern farmers will be removed.
Northwestern senators agreed today following a conference with a delegation of farmers, millers and business men from Oregon, Washington, Montana and Idaho, because of the differences in freight rates Northwestern farmers are receiving 40 cents a bushel less for their wheat than the price fixed by the food administration. This they estimate will entail a loss of \$15,000,000 on this year's crop.

BID-MALONE ADIEU

NEW YORK, Sept. 17.—Dudley Field Malone in a farewell address today to employees at the custom house, announced that his recently tendered resignation as collector of the port of New York had been accepted by the government.
In his address reiterated the reasons for his resignation—disapproval of the attitude of the administration toward woman suffrage.

PARADE IN RAIN

STOCKHOLM, Sept. 17.—The Socialist parade today was not a particularly imposing demonstration; heavy showers preventing a large turnout. A banner borne at the head of the parade contained the motto, "Down With Secret Diplomacy." Banners indicated the parade might be interpreted as a peace demonstration as well as an election demonstration.

24,000 Ironworkers Are Out; Government Action Delayed

(Continued From Page 1)

authority of the draft law loomed on the industrial horizon this morning as a last resort. Intimation of this action came from I. J. Thompson, general manager of the Iron Union, from Works, who declared that he would probably withdraw his request that industrial exemption be granted to employees of the company on a strike. The fact of the strike withdraws the exemption basis the men in the working of the Federal law, not being "necessary" to the proper conduct of the business.
The withdrawal of the exemption will place 800 men subject to draft in San Francisco. It is believed that a similar action by other concerns affected by the strike will run the number to double this amount.

LAST EFFORT TO AVER STRIKE FAILS

That it is shipping board is hopeful of an amicable settlement of Pacific Coast labor troubles was intimated today in information received from Washington. On receipt of the reports of Federal agents upon the strike dispute in Pacific Coast shipyards and of the iron workers of the San Francisco Bay district, the board made efforts hurriedly to settle the Seattle shipyard troubles. Only a few points of minor difference remain to be settled. The Northwest troubles and these are intimately connected with dissensions of this locality.
James L. Ackerman, a member of the United States Fleet Corporation, attended a meeting of the Pacific Coast Shipyard Association at which union representatives were present in a last effort to avert the strike, and declared that it was an unquestionable fact that the United States Fleet Corporation was ready to establish a schedule of wages for shipbuilding work on the Pacific Coast. He said:
"As the matter stands, neither the California Metal Trades Association nor the unions affected have applied to the United States for mediation. A committee representing the Federal Adjustment Board is in Puget Sound studying conditions and a similar study will be made here. A new schedule of wages which goes into effect at Mare Island navy yard tomorrow is the result of this committee's work."
Both sides altered their original positions somewhat during yesterday's conference. The men offered to accept 70 per cent of their original demands and the companies affected offered a 10 per cent increase over the wage scale in effect since August 27. Several of the leaders offered compromise agreements, which were rejected because the men themselves had reserved the right to strike. The corporation and shipyard heads are holding out for flat arbitration, and according to announcement made this morning following the strike, will continue to hold out for that status until some Federal action is forthcoming at Washington.

Violence Feared as Pickets Are Placed on Yards

PORTLAND, Ore., Sept. 17.—With an announcement from the Carpenters' Union that pickets would be stationed at all local shipbuilding plants where a strike had been declared, and a declaration from the shipbuilding companies that they would attempt to reopen their yards some time today or tomorrow, violence in the wooden shipbuilding strike was feared today.
The police department has special details of men along the waterfront. The union men are opposed to violence. The shipbuilding companies have the names of hundreds of men, they say, who want work. These will be offered places. As soon as enough men are secured to form skeleton crews, the yards will reopen. Two local plants at which the strike was a complete failure are running as usual today.
The issue here is declared to be merely the closed-shop question.

Defense Council May Solve Issue in Lumber Case

WASHINGTON, Sept. 17.—William Blackman, mediator from the department of labor, today took charge of the shipyard labor problem on the Pacific coast. Seattle workers are still out, but 44,000 men at Portland, Ore., have withheld striking pending an adjustment.
Rear Admiral Capps and Mediator Blackman arrived at a decision today regarding concessions the government will make. The problem has been

Russians Proclaim Republic

(Continued From Page 1)

were most encouraging. They showed that the Korniloff rebellion had been put down without bloodshed; the morale of the troops "is splendid" and the government "stronger than ever."
Official word that responsibility for the Korniloff defection had been fixed upon his advisers instead of himself is regarded here as an indication that the Cossack chief will not pay the death penalty for his crime. The cables say the Russians are forcing retention of more German troops on the east front now than at any time since the war began.

FLYERS BOMB TEUTON DESTROYERS IN RAID

LONDON, Sept. 17.—British navy planes scored hits against a large German destroyer and several trawlers in an air raid carried out between Ostend and Blandenberg, the admiralty announced today. The planes bombed destroyers, trawlers and drifters of the enemy.
"One large destroyer was hit amidships and one and probably two out of four trawlers were sunk," the admiralty declared.

ROME, Sept. 17.—Austria-Hungary is reported finding it increasingly difficult to keep in agreement with Germany. Diplomatic advices received here today told of an epidemic of riots throughout the dual empire and political differences as to Prussianism that indicate a growing breach between the two Teutonic powers.

WITH THE BRITISH ARMIES IN THE FIELD, Sept. 17.—German guns are becoming so worn, at least in certain sectors, that the Kaiser's troops are frequently killed by their own shells, according to prisoners' statement today.

WASHINGTON, Sept. 17.—Confirmation of the death of William Meeker of New York, an aviator on duty with the French forces, was received from General Pershing today.

REPUBLIC PROCLAIMED BY GOVERNMENT

PETROGRAD, Sept. 17.—Having subdued the armed dissension in its confines, the provisional government moved rapidly today in settlement of political disputes. Formal proclamation of Russia as a republic, as issued by Premier Kerensky, destroyed a growing propaganda trouble to German agents that Kerensky was planning a dictatorship. It was also a warning to any other leader who might aspire, as Korniloff did, to such dictatorial powers, that the government was solely a people's government. The constitutional convention which is to devise the machinery of Russian government has already been called for December 11. There were

STRIKE HALTED; PARADE IS HELD

SPRINGFIELD, Ill., Sept. 17.—Upwards of 8000 union workmen and women returned to work today after three days' idleness, during which practically every industry in the city was at a standstill. A unanimous declaration to return to work was voted at a monster mass meeting yesterday, at which speakers flayed city, county and military authorities for "confiscating the constitutional rights of union labor by stopping the labor demonstration a week ago."
No soldiers patrolled the streets yesterday when the mass parade wound its way to the meeting place. All was quiet and orderly as had been promised by the leaders.
The end of the general strike apparently leaves the car men high and dry.

CARPENTERS IN SOUTH MAY STRIKE

LOS ANGELES, Sept. 17.—Whether Los Angeles carpenters will go on strike for higher wages and union recognition was to be decided today at two meetings.
Representatives of the carpenters went into executive conference with Captain F. Charles Connell, named as special government mediator, and a second meeting was arranged for this afternoon, when the carpenters, with Captain Connell and Harris Weinstein, were scheduled to meet with the master builders.
Weinstein is looking after state interests.
The union men ask \$5 a day; time and a half for overtime, and double time for Sundays.
It was held that a strike of the carpenters might spread to other lines of industry and seriously affect Los Angeles.

ASK THE TRIBUNE

WORK RESUMED AT MINES IN BUTTE

BUTTE, Sept. 17.—The properties of the Anaconda Copper Mining Company closed down since August 24 because of a walkout at the Washoe Works in Anaconda, resumed operations this morning. Industrial Workers of the World leaders last night applied to Major Williams, commanding the federal troops in this district, for protection. They declared they were in danger of being deported by citizens. Major Williams said he had commands from the War Department to see that order was maintained and that he would carry out his instructions. At neither Butte, Anaconda or Great Falls were the troops or civil authorities called upon this morning, as there was no attempt to molest men on their way to work.
The night shift will be put on at all the mines; operations at the smelters are continuous.

CONSTIPATION IS A PENALTY OF AGE

Nothing is so essential to health in advancing age as freedom from constipation. It makes one feel younger and fresher, and forestalls colds, piles, fevers, and other dependent ills.
Cathartics and purgatives are violent and drastic in action and should be avoided. A mild, effective laxative, recommended by physicians and thousands who have used it, is far preferable. This is the combination of simple laxative herbs with opium sold by druggists under the name of Dr. Caldwell's Syrup Pepsin. It costs only fifty cents a bottle, a trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 436 Washington St., Monticello, Illinois.

MARE ISLAND ADDS \$10,000 TO PAYROLL

MARE ISLAND, Sept. 17.—More than \$10,000 weekly increase in the payroll of the Navy Yard here is estimated by officials to be the result of the decision in Washington of the War-Navy-Labor committee. The committee has announced the completion of the new wage scales, which will become effective as soon as the pay roll can be prepared.

The average increase will be approximately 10 per cent, but this will be exceeded in the case of the lowest grade of skilled labor. The rates are based on conditions as they were found after exhaustive investigations of living conditions in the various sections of the country and the investigators were guided by a desire to make the increases as nearly uniform in all sections as is consistent with the conditions.

4450 MEN ON PAYROLL.
The present force at the Mare Island yard is 4450 men, of whom a considerable number come under the classification of lower grades of skilled labor. The payroll at present is approximately \$90,000 a week, and the increase, which cannot be determined exactly until the officials complete the pay roll under the new scale, will, it is believed, exceed \$10,000 each week.

"In regard to the new navy yard scale," says the committee announcement, "the most important change is in the reduction of the number of rates in any one trade to three. Heretofore most of the skilled trades have been graded into five rates, the men in the lowest rates receiving oftentimes more than unskilled labor. Hereafter there will be but three rates, the lowest to be paid not more than \$1.04 per diem less than the first-class men. For instance, if the top rate for machinists is \$4.54 a day, the third rate must be at least \$3.50, instead of as present, in some cases, as low as \$3.04.

SOME REDUCED IN NORTH.
The increases given in the maximum rates will be found to average nearly 10 per cent. In some cases the recom-

Battery E Is Rechristened Enters Field Artillery, U. S. A.

By Sergeant Jack Cook, Battery E, First Cal. F. A.
MOBILESTATION CAMP, Arcadia, Cal., Sept. 17.—Battery E has been officially rechristened and is now known under the designation of Battery E, 1st Field Artillery, U. S. A. (Cal. F. A.) in adopting the serial regimental number as prescribed by the War Department the former National Guard units preserve their state designation by carrying the former title in parentheses following the regular army designation.
According to present indications, it seems reasonably certain that the battery will move to Camp Kearney, at Linda Vista on September 30. The entire second battalion composed of batteries D, E and F will move as a unit and become a part of the new camp, at which it is estimated there will be some 30,000 men under training. Officers and men alike are anxious to reach the new camp as progress will be much more rapid once the "proper material" is available.

DRILLS GIVEN VARIETY.
Considerable variety was added to the drills today through the temporary acquisition of a team horse with a saddle blanket and bridle, and two "shelter halves" with pegs and folding tent poles. The horse was used for a bit of preliminary instruction for the officers of the battalion and an interesting "climb" was held in the rear of the officers' quarters. The name of the horse was not obtainable.

Through a "progressive course" the two shelter tent halves were passed along the company streets and each section in turn had a "progressive" drill. The drill consisted of a march from the company street to the rear of the officers' quarters, where the shelter halves were to be erected. The drill was given by the commanding officer, who was assisted by the adjutant and the quartermaster. The drill was given in a very efficient manner and the troops showed a high degree of interest and cooperation.

The committee has approved the recommendations of the commanding officers at the arsenal. At certain of the arsenals in certain trades there remain appeals on which no decision has been reached. It is the intention of the committee to visit the arsenals in person or to send representatives to adjust all outstanding questions.

SOLDIERS OF JEWISH FAITH MAY ATTEND

If efforts which are being made by local rabbis to secure full participation from the Federal Government in the observance of Jewish religious observances which mark the Jewish New Year's celebration tonight and tomorrow are successful, the soldiers of Jewish faith may be released by the Government to participate in the religious observances which mark the Jewish New Year's celebration tonight and tomorrow.

This morning Rabbi Harvey B. Franklin, of Sinai Temple, Twenty-fourth and Webster streets, preached the inaugural sermon ushering in the Jewish New Year's celebration in the Jewish synagogue at 5678. The subject of his talk was "Universal Religious Service," a homily upon ideals of religion and national aims.

Services were held at 8 o'clock in the morning with a special sermon to be given. The second day of the New Year's celebration will be celebrated tomorrow, beginning in the morning with song and ritualistic service and sacred observances. Impressive services mark the observance of Beth Jacob congregation in the synagogue, at Ninth and Castro streets. The orthodox services were conducted yesterday and today by Rabbi Mayer Hirsch of San Francisco. Services were held at 7 o'clock this morning and will be repeated at the same hour tomorrow morning. Special music will accompany each service.

BERKELEY, Sept. 17.—Celebration of Rosh Hashanah was commenced at the Y. M. C. A. in Berkeley yesterday and will continue until tomorrow. One of the chief features of the New Year observance will be an address tomorrow at 10 a. m. by Rabbi Martin A. Meyer, of Temple Emanuel, San Francisco.

Services are being held by the First Hebrew Congregation at its temple at 2130 Center street. Services commenced there at 7 o'clock, special music being among the features. First services were held this morning at 8 o'clock at 1030 A. street, a sermon was delivered by M. Lowenthal, of San Francisco. Services will be held at 8 o'clock tomorrow and at 10 o'clock, when Rabbi Meyer will speak.

TELLS OF SUNDAY.
"Billy Sunday has Los Angeles in the grip of his power," said Harold Goveite last night in an address on "Billy Sunday in Los Angeles" before a large audience in the Pioneer Memorial Methodist Church. "Having been a member of the past week with Mr. Sunday in his big meeting in Los Angeles, I desire to say a word in regard to the evangelist and his work there. First of all, it was the biggest thing and the most interesting thing thought of and spoken of by the people of Los Angeles. On the cars, in the hotels, in the cafes, in the stores and on the streets, the people are all talking of the great evangelist and his meeting."

BUSINESS RALLY.
ATLANTIC CITY, Sept. 17.—One of the most important business conventions since America entered the war will open here tomorrow. Representatives of many various organizations were arriving today. Held under the auspices of the Chamber of Commerce of the United States, the "war convention of American business" will be addressed by Secretary of War Baker, Secretary of the Interior Lane, Herbert C. Hoover, Lord Northcliffe, members of the Council of National Defense and many others in war work. Business problems growing out of the war will be discussed in detail.

For Your "Meatless Meals" you will want food that supplies as much nutriment as meat at a lower cost—food that is easily prepared and easily digested. Shredded Wheat Biscuit contains all the body-building material in the whole wheat grain prepared in a digestible form. It is 100 per cent. whole wheat, nothing wasted, nothing thrown away. It is time to cut out expensive, indigestible foods that supply little nutriment and overtax the digestive organs. Delicious for any meal with milk or cream. Made in Oakland, California.

SPECIAL DEVOTION.
Devotional services which commenced yesterday at St. Mary's Catholic church continued throughout today and will conclude tomorrow at 10 o'clock with a procession of school children at the church. These devotional services, dedicated to "The Real Presence," are held throughout the world at different churches on every day of the year, so that the devotions never cease.
The church has been beautifully decorated for this service and attendance has been exceptionally large. Sixteen eucharist sermons were given by Rev. Father Brockhouse of St. Patrick's church, Menlo Park. This evening Rev. Thomas Crimmons will preach a special eucharist sermon on "The Real Presence." This devotional service, which commenced at 11 o'clock yesterday morning, continues uninterrupted for forty-four hours.

STRUCK BY AUTO.
John Macabee, an oiler at the Union Iron Works, out on strike and on his way from the yards, was hit by a delivery machine owned by the Oakland Towel Company, driven by E. L. Deeny, 1833 Bonita avenue, at Seventh and Broadway, at 10 o'clock this morning, sustaining broken ribs and bruises. Deeny had never driven an automobile before, except for a two-hour lesson Sunday. Macabee was taken to the Receiving hospital.

WAS TOO MUCH.
Hamilton Forrest, a horseman living at 1117 San Pablo avenue, has often been kicked by a horse and met with other accidents that didn't shake him, but when his wife threatened to leave him he lost his nerve and got all fussed, so much so that he had to call upon the doctors at the Emergency hospital.

OLD AGE A CRIME!
Some people are young at 60—red checked, ruddy and vigorous. Others are old at 40—joints beginning to stiffen up a bit; step beginning to lag and lose its springiness; occasional touches of pain in the back, feel tired without cause, and possibly a twinge of rheumatic pain. In most cases these are the danger signals to warn you that the kidneys are not promptly doing their work of throwing off the poisons that are always forming in the body. To neglect these natural warnings is a crime against yourself. If you have these symptoms you can find prompt relief in GOLD MEDAL Eastern Oil Capsules. For more than 250 years this has been the recognized remedy for kidney and bladder ailments.

THE CAUSE OF CONSTIPATION.
Constipation is usually due to a lack of water in the excrement. To effect a cure you must take more water into the system. It may be months, however, before this has any appreciable effect on the bowels, but when persisted in and fruit and vegetables containing water are eaten freely, the condition may be overcome. In the meantime use the mildest laxative obtainable and take only enough to produce the desired effect. Chamberlain's Tablets are one of the best. They are easy to take and most agreeable in effect. For sale by Osgood Bros. drug store. Advertisement.

WOMAN, 91, ASKS AID OF CHILDREN

Ninety-one-year-old Susan Sanders was before Judge Quinn this morning asking that her six sons and daughters be required to contribute to her support. Her children are: Henry A. Sanders, aged 60, Oakland; J. D. Sanders, 67, Rosalia, Washington; Sarah W. Swift, 55, Brentwood; Susan Blankenship, 45, Oakland; Lauretta White, 50, Oakland.
Mrs. White is included in the list of defendants in the action, though she has given her mother a home during the past 23 years, and will continue to do so. The other children are asked to contribute as they are able.

The defendants entered a general demurrer on the grounds that they have at all times been willing to give the aged mother a home, but it was declared that such willingness was never expressed until after the action had been started. According to Mrs. White, on the stand, the other children have contributed only trifling sums, generally in the form of gifts at Christmas time. J. D. Sanders is reported to be wealthy, having recently sold a place for \$40,000. D. W. Sanders owns a ranch in Contra Costa county. Mrs. Swift and her husband own a dairy farm. H. A. Sanders and the Blankenships are employed.

A preliminary hearing in the case was held several weeks ago on the sidewalk in front of the court house, the plaintiff being too feeble to take to the stairs to the court room. It developed that the aged woman was visiting her son in Brentwood during the summer she made the threat that she would walk to Oakland if she was not brought in spite of the heat that made it impossible for her to remain there.

CITY ATTORNEY TO PLAN FIGHT

Commissioner W. H. Edwards today required of the members of the city council as to what steps have been taken in the matter of procuring expert counsel for assisting the city attorney in the fight against the proposed rate increase by the ferry transportation companies.

"Deputy City Attorney W. H. O'Brien stated to the council that a conference will be held either late today or tomorrow between he and City Attorney A. F. St. Sure of Alameda and City Attorney Frank D. Stringham of Berkeley to discuss the question. After that a recommendation will be made to the council through the city attorney's office," he said.

City Attorney Paul C. Mori, before leaving for the east yesterday, recommended to members of the council, it is understood, that H. H. Sanborn, a San Francisco attorney, formerly connected with the Southern Pacific Company's legal department and one-time expert for the railroad commission, be given the appointment.

On the appointment it is rumored the opposition will be made to the naming of Attorney Sanborn.

I. O. O. F. IN SESSION

LOUISVILLE, Sept. 17.—Nearly 10,000 Odd Fellows from all parts of the United States and Canada were in Louisville today for the opening of the ninety-third session of the sovereign grand lodge of their order. The session began with a public meeting at which the visitors were welcomed to the State and city by Governor A. C. Stanley and Mayor John H. Buechler. The response was given by Frank C. Goudy of Denver, grand sire of the order.

DRAFT QUOTA TO BE GUEST OF OAKLAND

Members of Oakland's second draft quota will be the guests of the city tomorrow night when a farewell program will be held in their honor at the city hall.

Upon request of Mayor Davis the council today appropriated \$500 out of the entertainment fund to provide for the entertainment. Commissioner Jackson offered the Fireman's Band, which will render patriotic selections.

Deputy City Clerk Frank Merritt, who is making the arrangements for the city's part of the farewell in conjunction with the mayor, plans to provide emergency kits or comfort bags for each man in the contingent. If it is possible to do so. Lunches, done up so that they will keep until Wednesday noon, by which time the soldiers will be well on their way toward the northern cantonment, will also be provided.

Owing to the fact that the men are to leave early Wednesday morning and from different starting points it will be impossible for them to gather for the presentations, and for that reason it has been decided to carry out the entire program for their benefit tomorrow night.

"Perfect Girl" Is Bride; Weds Prospective Soldier

MARGARET EDWARDS, "the perfect girl" and star of the famous film "Truth," who is now Mrs. Howard Towne.

Margaret Edwards, the Physical Marvel, in Romance

TRIUMPH BUREAU
3011 SEATTLE AVE.
BERKELEY, Sept. 17.—Margaret Edwards, "the perfect girl," whose appearance in person on the vaudeville stage and in counterpoint on the moving picture screen have made her famous throughout the United States as an eminent example of the pulchritude of the feminine form, has met the fate that beauty ever meets at the hands of Cupid, the archer of love.

News of her marriage to Howard Towne, son of a wealthy mining operator of Globe, Arizona, has just reached her friends here and startled them.

No hint of her engagement or of the possibility of marriage had been allowed to become known, and when the movie star made a trip a few days ago to her girlhood home in Globe, the journey was looked upon merely as a vacation from the exacting demands of the camera studio. Now it transpires that her marriage followed only a few hours after her arrival in the mining city. Towne is said to have shortly with his draft quota. It is said, since he has waived exemption.

Margaret Edwards will always be remembered as one of the persons who made Berkeley famous. It was in the university city that she obtained her education and it was here that she was

turned exercises which transformed her from a thin and sickly child to a perfect specimen of femininity. While she was still in her early teens she began to appear in public to demonstrate the exercises which had wrought the wonderful change.

The attention of moving picture directors was soon centered upon her, with the result that she was soon starred as the unclad heroine in "Truth," a film which caused a veritable sensation. This was the first time that the nude was shown in a film that was allowed to pass the censors for public performance, and thousands of people crowded daily to see it.

Since the appearance of this picture Miss Edwards, or Mrs. Towne in private life, has been regularly engaged in moving picture acting and has been living in Southern California in the colony of these

DANCE HALLS IN CAPITAL FLAYED

SACRAMENTO, Sept. 17.—Affidavits that the red light abatement and the liquor laws are being violated in Sacramento were sent to District Attorney Bradford by Edwin E. Grant, former state senator, new law enforcement affidavits as being illegally conducted. Regarding dance halls the affidavit says: Affiant has for the last few months been making investigations of law violations in San Francisco and other parts of northern California, but in no case has he found as brazen and demoralizing a condition of vice, debauchery and ruin of young girls as he found in the Art Dance Hall in Sacramento.

Grant says evidence to substantiate the charges in the affidavits is at the disposal of the district attorney.

Plan Cuts in Health Department Board Would Abolish Many Jobs

Four positions in the city health department are threatened with the ax if the civil service board in what is believed to be a preliminary to an effort to remove Commissioner F. E. Jackson from the head of the department of public health and safety and eliminate some of the present patronage in the branches of the department under him.

While rumors of intended action on the part of the majority members of the council were rife at the city hall today, there were no resolutions presented. It is said that Commissioner Soderberg has held ordinance in his pocket covering transfers of commissioners for several weeks. It was thought that they would accompany the civil service report today, but the report and an accompanying resolution providing for the recommended changes in the health department was the only development.

On request of Commissioner Jackson the matter of consideration of the civil service board's report was laid over until next Wednesday afternoon, when a conference will be held in the Mayor's office at 3 o'clock between the commissioners, members of the civil service board and others interested in the proposition.

WOULD OUST FOUR.
The positions recommended to be abolished are:

SEEKS ROUTE CHINESE BEATEN
The State-Railroad Commission hearing on the application of Chester Lyons and his associates for permission to operate a stage line for the handling of freight and passenger service between Oakland and Walnut Creek began in Department 3 of the Police courts in the city hall today. The city of Oakland was represented by Attorney H. L. Hagan, an assistant in City Attorney Paul Morf's office. The hearing was held before Railroad Commissioner Byron Westover. The morning session was taken up with a presentation of a preliminary outline of the route to be followed and documents setting forth the plans of the applicant. Lyons also gave testimony as to his financial responsibility.

FOR BREAD CARDS
ROME, Sept. 17.—The Popolo Romano, speaking of the bread shortage, asserts that the government proposes to issue bread cards October 11, because the wheat harvest was short 10,000,000 quintals.

WILL SEND MISSION
TOKYO, Sept. 17.—Japan will send a delegation to the United States to confer with American representatives on economic problems of the two countries, it was officially announced today.

IS ASPHYXIATED
SAN FRANCISCO, Sept. 17.—Henry T. Flannery, 920 Eddy street, a Pinkerton patrolman, was accidentally asphyxiated in his apartment late this morning.

SEEKS BROTHER

Fearing that his brother has met with foul play, Dan Healy of Sacramento, who is visiting in Oakland, has asked the police to assist in searching for Joe Healy, who was engaged yesterday morning by two strangers, who hired his automobile. Healy says that his brother had been in the world from his brother before this time had he intended to remain away.

WASHINGTON STREET AT ELEVENTH

SURPRISES READY FOR DOLLAR DAY

Did you ever see a dollar grow? Dollars are precious metal indeed these days and most of us have to go and dig 'em up and dig 'em up. But each time they grow all over Oakland on Thursday, and by no wizardry either, other than that of Oakland's clever merchants in demonstrating the full purchasing power of the dollar on that day. For once the diminishing power of King Dollar will be arrested even if only for a day, and he will grow mightily in potency in his Oakland domain.

Thursday is dollar day in Oakland. On that day thrifty shoppers and enterprising merchants will co-operate for mutual benefit. Store windows will be bristling with dollar specials. Confusion in buying will be obliterated by the simplicity of the all pervading dollar mark on every article. Maximum value will be in every dollar purchase. The merchants are preparing surprises which will bring wide-eyed wonder and pleasure to Oakland shoppers, accustomed as they are to a rising scale in prices. Plans are afoot to make Dollar Day a more phenomenal success than it was last year when stores were crowded from early morning until closing time.

ASK JURY TRIAL

Jury trials were demanded by four defendants to charges of gambling who were arrested last Thursday night in a raid by Chief of Police Neiderman on the Charcoal Club at 1027 Broadway, when the cases were called today before Justice Aaron Turner, sitting in Police Judge Samuel's court. All pleaded not guilty.

The police claim that the men were engaged in a game of "black-jack" when they were arrested. All are at liberty on bail pending disposition of the cases. They were represented by Attorney Harry Morrison.

Plays & Players

PANTAGES BILL IS "SUMMERY"

One forgets the heat without and all other such little discomforts when Eddie Kane and Jay Merman make merry for Pantages audiences this week. It is early morning, supposedly, when they meet on the stage. One pushes along before him a buffet on wheels. The other has a difficult time of it even managing himself.

The comedies that ensue when these two comedians begin work in a real earnest is the kind to make you tell your friends about it. They irritate their time away in supposedly intoxicated conversation—not too intoxicated, understood—just jolly. In between somewhere they sandwich a song or two and a dance. Charlie Abner is the same old trans comedian crier with the rippling ideas. However, he doesn't appeal to his audience as much with the cycles any more, relying rather upon a jazz duet on wheels; a song-plugging pair, who do their work real well, and his own imit-

able comedy solo number on the bicycle. His great standing automobile race brings the same old screams of laughter. Classic dancing has not lost its popularity, as was proven when "The Birth of the Rose," a scenic and symbolic pantomime, unfolded before a generous audience. The dance tells a story about love and evil and love again when the world was a place of symphonies and satyrs. Edna Snell and Gladys Harrison lead the capable dancers.

Harry Godfrey and Vela Henderson matter down to honors in "Yacaree," a wild-fire conversational act that wins easily. Sometimes they sing, too. The Guiltless Trio add a thoroughly enjoyable classic note to the program with their favorite opera selections. Nelson and Nelson, athletes on stilts, do some turns on the wooden sticks that most of us couldn't even contemplate on solid earth.

ORPHEUM REMODELED

The coming season will be the biggest in Oakland's vaudeville history. This was shown when the Orpheum management made public the far-reaching changes in the policy of the Oakland house. This means that Oakland audiences will not only get the best of the entire Orpheum organization, but will be offered these in what will be practically a new theater. At an expense of thousands of dollars the Orpheum management has remodeled and renovated the Oakland Orpheum until it is practically a new theater. In every way the new house is more cozy,

more beautiful and more convenient to the patrons. There will be facilities and conveniences never before seen in a vaudeville house. The stage has been enlarged and remodeled to accommodate the big features of the coming season. The most celebrated of the ultra modern modes have been installed.

The Orpheum has kept up its reputation of doing things right in the work it has completed on the Oakland house, and with the new theater—for all intents and purposes it is a new theater—comes the promise that every Orpheum act will be completed on the Oakland house, and will give exactly the same show that San Francisco gets.

The most celebrated of the world's stars are among those booked this coming season at the Orpheum. An enlarged orchestra will be another feature at the Orpheum.

Among the other developments of the vaudeville season will be the installation of a new local management at the Oakland house, the details of this and of the opening, which will occur early in October, to be announced shortly.

Noted Star Makes
Hit in T. & D. Film

Bridging the gap between stage acting and that of the screen, is a difficult matter. So many famous legitimate stars have experienced, and as so many thousands of picture fans have come to realize, but in the case of Elsie Ferguson, yesterday at the New T. & D. theater, she made her debut in a truly remarkable and convincing manner, never hesitating nor stumbling over a part, but enthusing it with her wonderful, lovely, and calls for distinct and unstinted praise.

Her role, that of Lady Kathryn Wyverne, titled English woman, was a complex one, calling for an amount of emotional as well as dramatic characterization. All of the children, from life-size to the tiny, were found necessary in the play. The film is exciting and interesting as it is unusual.

Other features were projected headlined by an interesting edition of the Hearst-Pathe News. Professor Stickles' musical accompaniments were harmoniously arranged, interpreting the motif of the pictures.

Fairy Tale Proves
American Success

"Jack and the Beanstalk," as a picture of the time honored fairy story of generations of English-speaking people, proved all of the children, from life-size to the tiny, were found necessary in the play. The film is exciting and interesting as it is unusual.

Other features were projected headlined by an interesting edition of the Hearst-Pathe News. Professor Stickles' musical accompaniments were harmoniously arranged, interpreting the motif of the pictures.

"Little American"
Kinema Offering

While entertaining and thrilling us, Mary Pickford drives home a lesson of patriotism in "The Little American" that will sink deep into the mind of every American because it is put forth with

BOARDS WILL CALL MEN ON SHORT NOTICE

Through the omission of the district board in certifying back to the local boards names of drafted men who are qualified for military service, Oakland today faces the serious possibility of being unable to send out her required quota of 360 men to American Lake next Wednesday.

Unless the names are forthcoming before evening local boards will notify Adjutant General J. J. Borree to that effect.

That fact, which board members are afraid may be taken as a reflection on Oakland's patriotism, is due entirely to the congested state of affairs in district board headquarters in San Francisco. The opinion is freely expressed by local board members that Oakland has been overlooked in order that the San Francisco quotas may first be filled. This, notwithstanding that Oakland must send away her men two days before the San Francisco contingent leaves.

Even should the local boards get their full certified lists today, it will mean that several hundred men will have to arrange their affairs and make preparations for leaving on only a few hours' notice.

The fact that which will take the Oakland contingent to Camp Lewis leaves Wednesday morning at 9 o'clock, and the earliest the men can be notified will be tomorrow morning. As early as these men are working they probably will not know they have been called out until they return home tomorrow evening. This will, in many instances, work a hardship which board members were particularly anxious to avoid.

FEW MEN READY.

The way the situation now stands, Local Board No. 1, whose quota is 79, has 15 men ready to leave; Local Board No. 2, whose quota is 89, has less than 50 men it can call on; Local Board No. 3, with a quota of 96, is in better shape than any of the others, having nearly 70 men to send out; while Local Board No. 4, with a quota of 84, has approximately 45 men ready for entrainment.

In all 180 men have been notified, but of this number it is estimated that at least 10 per cent will fail to show up for various reasons. Some of the men are out of town and will not receive their notices in time. Some have changed their addresses and still others of the called men will be found to have enlisted or have been exempted on industrial grounds.

It is possible that the remainder of the quotas will be sent to Camp Lewis with the second Oakland contingent—consisting of Districts 5, 6 and 7—next Sunday morning.

The District Board has certified the following names to Local Board No. 4, who will be called in this contingent leaving Wednesday: Raymond R. Sosaquer, John Sosaquer, George Kawa Kake, Martin Orner, Fred A. Wetman, Clinton C. Campbell, Joseph Kelly, Alexis G. Boulton, N. L. Thompson, Wilmet C. Henry, Frank J. Nolan, Michael R. Dutton, Harold H. Anley, Otto S. Volt, Floyd E. Shain, Benjamin A. Boucher, Edward Fortier, Wells Whitmore, Buenaventura Masonson, Isidore Giambino, William A. Bartholmae.

Supplementary examinations of drafted men are being conducted today by Local Boards 3 and 4, and another call for eighty men will be sent out by District 3 tomorrow for examinations next Friday.

such smashing force and so wonderfully produced that while it grips us with its many interesting incidents it is indelibly marked on our deepest consciousness.

It is a novel departure for little Mary, very unlike her many frothy plays, and she succeeds beyond expectations. While this play deals with a war-time subject, it evades every unpleasant incident.

On the same program is being shown also a Keystone comedy, a Paramount photograph and the latest News Weekly.

Girl Swimmers to
Contest at Idora Park

Next Saturday and Sunday, September 22 and 23, the big swimming pool at Idora Park, with its 100-ft. sandy beach, is to be given over exclusively to young women, and from all accounts it's to be some gathering of the swimming community. Of course, the park and its multitude of attractions and amusements are open to the public, but the piece de resistance is to be the second annual Idora Park pageant in which one hundred maids will participate.

The event will be highly interesting and prove much out of the ordinary. This is vouched for by the fact that many of the season's most charming and skillful nymphs of the deep are to take part in the contests. The Idora Park management has received word from many of the best known women swimmers of the bay region announcing they will be on hand to share in the contests.

"Grafters" Busy
in Franklin Film

Grafters, swindlers, how many people are struck by them every day? And they do not steer clear of them either. Just last week one of our boys in blue, while on furlough, was suddenly relieved of his earnings and savings. Another chap from out by Hayward was skinned out of his wad. And many other instances that are never heard of again are going right on. Many of them even not published for fear of the shame.

How does it happen? Ask the victims, ask the police authorities, they know. But see for yourself, without being skinned. At the Franklin, today and tomorrow picture "Grafters" is playing. It shows, in all the ways, how they do it. It gives both a lesson and a story. In the play the boy has just inherited a fortune, but is an easy mark for "strangers."

The companion feature is "The Show-Down" with Myrtle Gonzales and George Hernandez. A party of people, among whom is a wealthy gold hunter from Wall Street, a philanthropist and friend of the oppressed, a weakling society youth, and a bored-of-life girl. Left by fate to shift for themselves, the melting pot of primitive life entirely changes the characters of the party.

Cramps of the Stomach and Bowels. I have a high opinion of Chamberlain's Colic, Bile and Dysentery Remedy. It will cure cramps of the stomach and bowels quicker than anything I know of. Advertisement.

'MILLIONAIRE' IS PASTOR'S TOPIC

Rev. Frank M. Sillsie, D. D., preaching at the First Presbyterian Church yesterday morning on "The Believer a Millionaire," said: "Things present belong to the moral and spiritual citizenship of the world. The things of war and the shaking of the nations are ours to magnify and promote the Christ of right, and heart and permanent peace. Whatever be the horrors of war, Americans are finding their souls through the war, just as the Germans, Frenchmen and English men are finding their true selves. When we merely take care of ourselves, we are a flabby comfortable, indulgent

ideal of life. The things present are teaching us the value of altruism, sacrifice, service, and the very mind of Christ. Waves of good suggestions are sweeping over the warring nations and the rulers so that the moral and spiritual element will have a grip upon things to come. Like flecks before the burst of dawn, it begins to look as though the world powers will establish a Christian peace. And the men who are fighting so bravely may yet say: 'You need not pity us so much, if we establish international relations on the basis of truth and justice and reason and God. Peace is coming and a religious awakening is coming. People will turn to Christ in the great nations as never before. And the emphasis of the future will be upon Christianity and not mere Churchianity.'

The Rector Heating System

Uses Gas

The Low Priced Fuel

- Gives practically 100% heating value out of the fuel used.
- Gives exactly the amount of heat desired, when and where you want; no transmission losses.
- Maintains an even, non-fluctuating temperature.
- Is operated as easily and readily as an electric lighting system. Just press a button.
- Is absolutely odorless; dustless and healthful.
- A ventilating system as well as a heating system, in that it is constantly renewing the fresh air throughout the building and at the same time exhausting the vitiated air.
- Even figuring the interest on the investment, plus the cost of fuel, it is the more economical system.
- You will want heat this winter. Get an estimate on a Rector Gas Heating System now.

An estimate will cost you nothing

DOUBLE OAK WILCOVER SEALS TIGHTENS PENNANT RACE

PERCY AND FERDIE---A Personal Interview? Percy Has His Wish

By H. A. MacGILL
Creator of the Hall-Boys.

HOWARD MEN TAKE WEEK'S SERIES FROM LEAGUE LEADERS

New Pitcher Will Join Oaks After Trip Up North Next Week

With two tight wins from the league leading Seals yesterday that put the leaders on the short end of the week's series, the Oaks jumped into the limelight again as a club that will make enough trouble for the rest of the season to play a big part in the 1917 Coast League pennant race. Three to one in the morning session was the game that was credited to "Happy" Gooden when a big crowd of fans turned out to see "Speed" Martin in action only to be disappointed when "Speed" refused to work on this side of the bay. Two to one was the figure story of the afternoon game in which Martin out-pitched Chief Johnson on the Seal lot. The double win gave the Oaks four games out of seven for the week's play.

With Salt Lake breaking even with Vernon yesterday and with the Angels sharing the day's honors with the Beavers, the double-headed win of the Oaks tightens up the old pennant race so that the coming week's series looks like one of the biggest weeks all around the circuit that the league has seen this year. The Seals are only a game and a half ahead of the Salt Lake Bees, and the Angels are only two games behind the Bees, so that none of the first division clubs is sure of being in the same position for more than two days.

Even the Beavers in fourth place and the Oaks in fifth place are still in the running, and a winning spree by either of these clubs would put it up among the contenders. Six and a half games separate the Beavers and the Oaks, and with the first division boys up against tough games this week, that is not such a big margin. The Oaks are only two games behind the Beavers in the north and the week will tell the story of the season as to whether either of these clubs can be counted as a first division possibility. A good clean-up for the week will put either club in the running, if the clubs battle along on even terms all the week, there will be no chance of catching up, for after this coming week there are only five weeks to the pennant race.

Next week the Oaks will be strengthened by the addition of a star pitcher from the Western League, Carl East from the Lincoln club, who has had try-outs with the St. Louis Browns and who has had a great year in the Western league, will join the Oaks when they return next week to battle Salt Lake.

BIG SERIES IN BAY LOTS.
In the meantime this week the Bees and the Seals will stage the real crucial series of the year on the bay lots. The Seals lead by only a game and a half and the Bees cannot go out ahead this week, they might as well be content with second honors. But the Angels are sticking close behind, and if they can clean up on the Tigers this week, the Bees and Seals are cutting each other's throats.

If the Oaks keep up the form they showed last week in one of the prettiest series of battles that they have staged on the home lots this year, Howard's

1918 BOWLING TOURNEY.
CINCINNATI, Sept. 17.—Officials of the American Bowling Congress, meeting here Sunday, decided to hold the 1918 A. B. C. tourney in the first regiment armory here, starting February 15. Eighteen alleys will be used. It had been thought conditions caused by the war might prevent the tourney.

FORMER ATHLETE DEAD.
ST. LOUIS, Mo., Sept. 17.—Lucien D. Cabanne, formerly widely known as an athlete, died at his home here yesterday. Cabanne was a member of the St. Louis Cardinals, and was a professional athlete. He was 46 years old.

OAKS TAKE EARLY LEAD.
In the morning game the Oaks jumped on Smith early for three runs. An error, walk and passed ball by the Bees, and a winning run in the first frame, but in the third Murphy tripled and scored on Miller's error. In the fourth Miller singled, Gooden surprised himself with a double, and Leard's long fly chased home the run.

In the afternoon Johnson was inclined to be hard just at times when the Oaks were in the first frame, but in the second frame, stole third, and scored on a wild pitch. The Seals tied up the game in the seventh when Schaller doubled, advanced on a passed ball and scored on Corhan's safety. Lane's single gave the Oaks the lead, and Leard walked and Murphy sacrificed the runners ahead. Stumpf was purposely walked, filling the bases, Corhan hit a single, and the Oaks were in the lead.

NO OAKS ABOVE .300.
Fitzgerald and Rath are tied for first batting honors this week and today the Bees has dropped back seven points behind the leaders. The Oaks have not a man batting over .300 except Martin. Hack Miller is batting .292 and Murphy is hitting .282. Stumpf has dropped to .231; Middleton at .203 and Gardner at .200 are the next best batsmen among the regulars. Robin is safely out in front as the best run maker, and Lane, despite his .277 batting average, is safely in front as the league's best base-stealer.

and acts as a tonic to your general system at the same time. Rather throw away your sprays forever, if they are to interfere with the proper treatment of your Catarrh.

S. S. S. is the most satisfactory blood remedy known, and is purely vegetable, containing only the extracts and juices of roots and herbs. This great remedy has been in constant use for more than fifty years and has given splendid results in the treatment of Catarrh. All druggists sell it, but insist that they give you the genuine S. S. S. There is nothing else like it.

You are invited to write to our medical director, who will gladly give you expert advice regarding the treatment of your own case, without charge. Address: Swift Specific Co., 18-G, Swift Laboratory, Atlanta, Ga.—Advertisement.

SCHROTH IS EASY WINNER IN ONG RIVER SWIM

George Schroth, the swimming giant of the Riverside Club of Sacramento, carried off the honor of the San Joaquin river swim at Stockton yesterday morning in one of the most sensational distance races ever held on the Pacific Coast. The course was 5-1/2 miles in length and the big high school boy covered the distance in 2 hours, 37 minutes and 30 seconds, after having been told over the entire course by Ralph Cruise of the Neptune Club of Stockton, who was forced to quit on the last quarter mile. Out of 33 starters, only eight completed the course. Lincoln Johnson of the Olympic Club came in second, 300 yards behind Schroth; Pete Lenz, third; Joseph Stout, fourth; Thomas Buck, fifth; A. Hebbie, sixth; all of the Neptune Club of Stockton; W. Gomath of Lodi, seventh; and F. McElroy of the Neptune Club of Stockton, eighth. A mile and a half of the course was swum against the current.

Charley Herzog Not Likely to Appear in World Series Play

By H. C. HAMILTON.
NEW YORK, Sept. 17.—Charley Herzog out of the game—perhaps for the last time—the Giants today begin their last western trip of the season. At his home in Maryland, Herzog declared that he improves greatly in health he will not return to the game, even for the world series. He said he is tired, however, to get into the big games.

Pat Moran's Success With Phillies Is Due to Faith in Veterans

Old veterans, tried in their places—men who have learned the game and haven't forgotten it—are the reasons for Pat Moran's success year after year with the Phillies.

Starting each season with a team that scarcely figures as strong as some of the others, Moran is always able to give the best of the league a stiff fight. This year, while he hasn't been close enough to being a serious worry, he has been pounding along behind ready at any time to spring out and tear down the McGraw predominance.

OAKLAND RUNNERS TAKE HONORS IN DIPSEA RACE

Mason Hartwell, the former Oakland high school champion runner, running under the colors of the Olympic Club, carried off the honor of the Dipsea race yesterday morning. For the last few years Hartwell has been specializing in the Dipsea contest with the idea of capturing both first place of time and prize in one race and yesterday he accomplished it, running away from a field of 21 starters and leaving even the almost unquarable Oliver S. Millard 2 minutes and 55 seconds behind.

Brick Devereaux Takes Off His Slippers at End of Perfect Day

By CARL E. BRAZIER.
"Brick" Devereaux rendered a touching little ballad, took off his slippers and challenged anybody to a footrace, and told that old story about the first baseman who with two out in the ninth and the game safe by one run took a grounder a few feet from first and made a wild heave to home to head off a runner.

Shellmound Games Hurt by Dipsea Race

Owing to the Dipsea race but few athletes participated in the annual games of the Irish Volunteers at Shellmound Park yesterday afternoon. Alvah Richmond, former International high jump champion, participated in the 16-pound shot-put and hop, step and jump events, but was too heavily handicapped, and had to be satisfied with a third place in the shot and second in the hop, step and jump.

Strachan and Mary Browne Win Matches

CHICAGO, Sept. 17.—Miss Mary R. Browne of Los Angeles won from Molla Bjurstedt of Norway, 1916 national champion, in two straight sets yesterday in the second day's play of the army tennis matches. The score was 6-1, 6-2.

Howard Men Take Week's Series From League Leaders

With two tight wins from the league leading Seals yesterday that put the leaders on the short end of the week's series, the Oaks jumped into the limelight again as a club that will make enough trouble for the rest of the season to play a big part in the 1917 Coast League pennant race. Three to one in the morning session was the game that was credited to "Happy" Gooden when a big crowd of fans turned out to see "Speed" Martin in action only to be disappointed when "Speed" refused to work on this side of the bay. Two to one was the figure story of the afternoon game in which Martin out-pitched Chief Johnson on the Seal lot. The double win gave the Oaks four games out of seven for the week's play.

Pat Moran's Success With Phillies Is Due to Faith in Veterans

Old veterans, tried in their places—men who have learned the game and haven't forgotten it—are the reasons for Pat Moran's success year after year with the Phillies.

Shellmound Games Hurt by Dipsea Race

Owing to the Dipsea race but few athletes participated in the annual games of the Irish Volunteers at Shellmound Park yesterday afternoon. Alvah Richmond, former International high jump champion, participated in the 16-pound shot-put and hop, step and jump events, but was too heavily handicapped, and had to be satisfied with a third place in the shot and second in the hop, step and jump.

Strachan and Mary Browne Win Matches

CHICAGO, Sept. 17.—Miss Mary R. Browne of Los Angeles won from Molla Bjurstedt of Norway, 1916 national champion, in two straight sets yesterday in the second day's play of the army tennis matches. The score was 6-1, 6-2.

Tennis Play Will Reach Finals Sunday

The hot weather in no way dampened the ardor of the players in the patriotic tennis tournament now being played on the new courts of the Berkeley Tennis Club. The usual large quota of players participating in the tournament ran off an extensive program yesterday the fifth day of the tournament.

Howard Men Take Week's Series From League Leaders

With two tight wins from the league leading Seals yesterday that put the leaders on the short end of the week's series, the Oaks jumped into the limelight again as a club that will make enough trouble for the rest of the season to play a big part in the 1917 Coast League pennant race. Three to one in the morning session was the game that was credited to "Happy" Gooden when a big crowd of fans turned out to see "Speed" Martin in action only to be disappointed when "Speed" refused to work on this side of the bay. Two to one was the figure story of the afternoon game in which Martin out-pitched Chief Johnson on the Seal lot. The double win gave the Oaks four games out of seven for the week's play.

VALLEJO FANS MAY ADD CLUB TO BIG WINTER PLAY

Vallejo is the latest possibility in the unrestricted division of the winter baseball league. There was a good deal of discussion of fans at the Richmond game from Vallejo yesterday, and it did not take them long to get interested in the discussion of winter baseball possibilities in which Merced and Richmond fans were engaged. There is plenty of baseball interest in Vallejo, and it is not surprising that the winter league in the Richmond office at Eighth and Franklin streets. But Vallejo fans are planning to be represented at the meeting and it is possible to get a movement on foot in time for definite action by tomorrow night they will be on hand with a declaration of willingness to get into the league.

Merced is handicapped by not having a playing field that recovers from a heavy rainstorm in a few days, but the suggestion yesterday that the Merced club might be entered in the league as a road club, revived the possibility of keeping the Merced club together during the winter. Merced figures that it can do anything that Richmond can do, except that it is 5 to 0 beating and Merced will be in the league if there is any chance.

Elia Vista will be represented at tomorrow night's meeting. Bill Steen will try to be on hand from Pittsburg, and Tub Hinchey will either be on hand or have somebody at the meeting qualified to speak for Stockton. The fans from all parts of the central California territory gathered at yesterday's Richmond game saw great possibilities in this plan for an unrestricted division of the winter league. It is not surprising that the division of the league would develop into a winter league proposition than was first expected.

But the prominence being given to the out-of-town unrestricted clubs does not mean that the fans from Oakland and going to be left out in the cold at tomorrow night's meeting. Secretary Woodward will either be on hand or have somebody at the meeting qualified to speak for Stockton. The fans from all parts of the central California territory gathered at yesterday's Richmond game saw great possibilities in this plan for an unrestricted division of the winter league. It is not surprising that the division of the league would develop into a winter league proposition than was first expected.

Horses Scratched to Cut Down the Field in Bay View Racing

An accident to Shorty on the way to the Bay View track for yesterday afternoon's harness races, scratched one of the best entrants from the card. Several other entrants were also scratched, and the card was cut down to 10 races. The racing was fairly good and the finish close. Following are the results:

First race—2:40 class:
1. J. C. (Gerry) 1:50
2. Sam (O. O'Brien) 2:00
3. Jewel Pointer (W. Dixon) 2:05
Time: 2:45, 2:45, 2:50.

Second race—2:30 class:
1. Dolly Grey (Joe Murphy) 2:35
2. Elsie (G. H. Smith) 2:40
3. Dolly G. (M. McNeel) 2:45
Time: 2:35, 2:40, 2:45.

Third race—Free-for-all, pace:
1. Allegro (G. Schreiber) 1:50
2. Grand W. (A. Hinds) 1:55
3. Cleo (Vern) 2:00
Time: 2:21, 2:22, 2:21.

St. Mary's Football Squad to Get Busy With Weak Players

Mapham and Perovich shape up as the chief centers of strength for the St. Mary's varsity football squad today as a result of the showing of the team in a 10 to 0 victory over the Xaverian school team from the naval training station. The St. Mary's team made a fairly good showing for so early in the season but showed up some tougher line opposition than they figured to buck in the Xaverians.

The latter will play the Originals next Sunday and figure to make trouble for a lot of fast teams by the time they get going.

St. Mary's team showed a lot of weaknesses that will be plugged up by some hard training work in the next few days.

MARRIED LIFE

WHO'S WHO IN THE WORLD'S SERIES

No. 17—Lewis G. McCarthy
Giant Catcher.

Since he first broke into the major leagues as a member of the Brooklyn Dodgers in 1914, Lewis McCarthy has been doing his bit to keep the Irish to the fore in baseball.

Spurred against Lew, and his big hat and heavy mustache, the Irish catcher has been a member of the Men of McGraw. On the first western road trip of the Giants McCarthy suffered a broken left leg at Cincinnati. In the game he was caught by his spikes on the cushion in sliding back to first base and had to be carried from the field.

Ever since that time McCarthy has been on the hospital list, and it was not until the accident to McCarthy will probably keep him out of the world's series this fall for the break was a bad one, and he will hardly be able to pick up the permit Lew to take chances. However, he will be present on the bench, and the chance comes for a pinch hitter he may be called into the game, for he is one of the best hitting catchers in the big leagues today.

Thanks to the fact that Bill Rariden is a horse for the Giants were enabled to get along without the services of McCarthy, but there is no denying that his bat and his handling of the pitchers were sadly missed at times.

McCarthy came to the Giants in the famous trade for Fred Merkle late last season. At the time Jack Daubert was unable to play first base and Robby was up against it for an initial bargain to carry him through to the championship.

So he had sacrificed one of the best catchers in the game to fill the hole at first base, and it was because of this that he let McCarthy go to McGraw. McCarthy's manager at the time was the Irish form when he broke his leg at Cincinnati this spring, and had it not been for the misfortune he would have been one of the leading catchers in the majors without a doubt. This is McCarthy's fourth year in the big leagues, and although he will be 35 years old in November, he has many a good year of big league ball left in his system, if he can dodge the line.

McCarthy broke into professional ranks with a semi-pro team at Danville, Pa., in 1908 and made his first real professional service with the Newark club of the International league in 1911. Brooklyn secured him from Newark in the fall of 1912 and he has been with the Giants ever since.

McCarthy, like Rariden, is a catcher who likes plenty of work. He has been himself in good shape. He is fairly fast, a smart handler of pitchers and possesses a safe batting record around the league. He was born at Milton, Pa., November 17, 1883. He lacks a half inch of being 6 feet tall and weighs 190 pounds.

product of the Cubs. Benny Kauff, one of the best fielders in the majors, graduated from the Federal League and got his training under Bill Phillips and other legends.

Lew McCarthy, though he is of little use this year because of a broken leg, is nevertheless one of the best catchers in the game, and Uncle Wilbert Robinson taught him how to be a great catcher. Bill Rariden gave his big league training at Boston, and McCarthy learned from the outfield league.

Hans Lobert, veteran though he is, can be trusted as a valuable man to have around, and Hans learned his major league baseball at Cincinnati and Philadelphia. He has been a member of the Giants, was brought back after he had received some valuable experience at Boston and Cincinnati.

HOOPER OR LEWIS MAY BE TRADED BY RED SOX

NEW YORK, Sept. 17.—Having failed to drive his way into an American league pennant on his first trial as a big league manager, Jack Hooper, manager of the Red Sox, may be depended upon to begin an immediate rebuilding of his team.

Startling news by telegram many men who have helped send hopes of the opposition toppling probably will feel the axe.

It would not be at all surprising to see at once a shakeup that will involve the outfield and parts of the infield. Hooper's record has been so far from successful in Boston in past years is practically intact, so much so that tampering with it would be tantamount to raising a storm among the fans.

Barry started the year under a greater handicap than most first-year managers. He has been able to see only the fact that a championship baseball club, finely molded as a playing unit, was turned over to him. They neglected to note that one of the strongest points in the playing scheme of the Boston club was the connection as manager.

Only one competent catcher was left when Corigan decided to go into the office. The Giants' slugger, McGraw, was left to shoulder the burden. His work has been of the best sort, but the assistance he has been given by Thomas and Cady has been rather ragged.

Corigan, although he never was given entire credit for it, was one of the best pitchers in the league. He was a catcher, but there is no denying the fact that Corigan's effectiveness has been largely due to the fact that he has been ready to move over for younger material.

The outfield possesses two veterans in Harry Hooper and Duffy Lewis, men who have not reached the length of their careers yet. Walker and Sherten are youngsters.

Despite their worth, it may be that a trade will be arranged for Hooper and Lewis. A slugger, McGraw, is being sought for that section of his team.

Barry's pitching staff still scintillates in the way of its utilization. Babe Ruth is far and away the game's best left hander; there is doing wonderful work. He has had one of his best years. Herb Pennock is beginning to indicate the judgment of Connie Mack, who once predicted he would be a star.

Vic Corbett Beaten in Last Game Before Joining the Army

Vic Corbett, the Money Back, Smith twirler who was drafted by Uncle Sam and will report to his league some day this week, made his farewell appearance on the mound at Bushrod yesterday afternoon and lost his game to the Hall-Scott Motor Co. by a score of 8 to 4. The game was featured by heavy hitting. Over half the hits made by the two teams went for extra bases. Beeson, the Hall-Scott second sacker, was the leading hitter of the day with 10 homers and Robinson of the Money Backs also hit one for the circuit, making it three in as many games. Robinson is another of the Clother players who will be called to the colors and will leave the same day as his teammate, Vic Corbett. The loss of Corbett and Robinson will hit the Money Backs hard, as these two boys have always been of great value to their team, both in their playing and hitting.

Francis LaFargue did the pitching for the Hall-Scotts and did remarkably well, holding the Clother to four hits and helping with his own game by hitting out a triple. Corbett also twirled a good game. Seven hits were made off him, but several costly errors behind him had much to do in helping the Hall-Scotts in piling up their eight runs. The score:

The Secret of Sweet Music (and mellow Cigars)

Time-curing

Take two Pianos, one with a sound-board fashioned from well-seasoned wood, another with a sound-board made from illy-seasoned wood. The one will have a beautiful tone, the other a poor tone. It's simply a matter of careful time-seasoning.

OWL Cigar flavor and OWL Cigar fragrance too depend on the proper time-curing of good tobaccos.

And OWL time-curing requires that we keep constantly on hand at least \$1,000,000 worth of selected tobaccos. It requires that Father Time exert his mellowing influence on OWL leaf for a period of many months. And experts must constantly watch OWL leaf with keen eyes on the exact point of OWL "readiness."

OWL Cigar fragrance and OWL Cigar mellowness testify how well Father Time and his experts do their work.

Let an OWL Cigar give you personal evidence of its mellow fragrance. The cigar store is close-by and the cost is but a nickel.

FRUITVALE NATIVES Come From Behind and Beat Maxwells

Fans at Fruitvale Recreation park yesterday witnessed one of the hardest hitting games of the season when the Fruitvale Native Sons downed the Maxwell Hardware nine by the large score of 12 to 3.

Credit for winning the game for the Fruitvale natives goes to Frank Garcia, who relieved Red Powers on the mound in the third inning when the Maxwells were leading 8 to 2. The score then stood 10 to 3 in favor of the Maxwells and it did not seem to worry Garcia and he went right to the job of pitching. Just as he was about to even the score, his work was rewarded by a home run by Garcia and he went right to the job of pitching. Just as he was about to even the score, his work was rewarded by a home run by Garcia and he went right to the job of pitching. Just as he was about to even the score, his work was rewarded by a home run by Garcia and he went right to the job of pitching.

These for was the hitting star of the day, getting three safe wallop, one of them being a homer with the bases loaded. He was also the lusher, featured with three hits while Rodgers and Kean led the slaughter for the winners. Both teams played a loose fielding game.

What Is the A. B. C.?
A. B. C. What is it? An organization founded for the benefit of newspaper space buyers. A. B. C. stands for Audit Bureau of Circulations. It is the business of the A. B. C. to verify the circulation claims of its members. Twice a year the A. B. C. goes through the TRIBUNE's circulation books, so that it can place before the advertiser a clean and concise report based upon its circulation investigation. The A. B. C. tells you how many copies of the newspaper are printed, paid for and distributed, and any newspaper may avail themselves of this audit.

The TRIBUNE is the only Oakland paper that has permitted this examination.

temporary pet of a dissolute member of the court, and only a few could look forward to earnings sufficient to support them through the long years after the close of their ballet career.

But under democracy the girlhood of Russia may not be enslaved in an institution of pleasure and sensuality. Girls will be permitted to try one career without prejudice to their opportunities in other professions. The rotten structure of autocratic princes and their parasites, to serve whose purposes the ballet system was largely maintained, has been destroyed.

TRADE WITH SOUTH AMERICA.

After the government, under the sinister influence of Senator La Follette, has done all it could to drive merchant ships flying the American flag out of the Pacific ocean, after the Pacific Coast States have been made dependent upon Japanese government shipping monopoly for the greater part of ocean carrier service, the Federal Shipping Board has announced its intention to establish a line of steamships between New York and Valparaiso.

Of course, this new line of ships will touch at other ports of egress on the west coast of South America; for the products of Ecuador, Peru and Bolivia, as well as those of Chile. And they will no doubt call at New Orleans, Galveston, Norfolk and other ports south of New York.

Such a line should have been established long ago. The discouragement of the seaman's law prevented it. It will go by a route thousands of miles shorter than any possible before the opening of the canal. It will put the manufacturing States of the Atlantic Coast in direct and short range touch with the richest, the most enterprising and the most friendly of South American states. It will mean new business between America and the Andean provinces of Brazil and for the trans-Andean and other railroads having termini on the coast.

The new arrangement ought to mean a great increase in our trade with South America. Just before the war Bolivia had a total foreign trade of about \$55,000,000, of which we had \$2,000,000; Chile, of \$251,000,000, of which we had \$40,000,000; Ecuador, of \$22,000,000, of which we had \$6,000,000; and Peru, of \$67,000,000, of which we had \$16,000,000. Thus there was in these four states a total foreign commerce of \$395,000,000, of which only \$64,000,000, or a little over 16 per cent, was with the United States. Yet at that time the Panama canal gave us an advantage of thousands of miles over our rivals. Even in 1915 our trade with Chile, both imports and exports, was only about \$38,000,000, while Great Britain's trade with that country was more than \$180,000,000. There is abundant room for improvement.

But while the Federal Shipping Board is providing a new line of steamships for the trade between the Atlantic Coast and the Pacific side of South America, what will it do to promote the commerce between the Pacific Coast of the United States and the same territory? As a minimum of consideration for this section of the country, it ought to think twice before it impresses into the federal service privately operated merchant vessels engaged in the west coast trade of the Americas.

WAR SUFFRAGE IDEAS.

The Canadian parliament is debating a "war time" election bill which holds unique interest at least. No one can say at this time whether or not it contains the germ of a governmental policy that may become popular in all countries at war.

Mothers, wives, sisters and daughters over 21 years of age of members of the Canadian expeditionary force are to be given the right to vote. On the other hand, for the period of the war, the vote is to be taken from persons of enemy alien birth who have been naturalized since March 31, 1902, unless they have one or more sons, brothers or grandsons enlisted in the Canadian forces. An exception is made for Americans and Syrians, but the disfranchisement also applies to conscientious objectors.

The theory of these proposals is that, in the first place, women who have an established interest in the war should vote upon the composition and the policies of the government, and in the second place, that the enemy should not be permitted, through sympathizers and agents in Canada, to participate in the elections of the government. The latter precaution might be well taken providing it does not entail hardship and cloud with suspicion many alien citizens of Canada who are as patriotically supporting the government as the native-born.

Only one test is absolutely just in this connection: that person who owes citizenship duties to the United States by virtue of his birth or oath of naturalization, but who shows by speech and acts that he thinks more of another country, or of his own ease and comfort, than his own country, should not be allowed to vote.

Important and informing are some facts concerning the University of California contained in an address recently delivered by Dean Hunt. The college of agriculture alone has a staff of 165 scientifically trained men and women, and this is to be increased by ninety through California's share in the appropriation of \$11,000,000 for conservation, carried in the food control act. California's share will be \$104,000. The broad trend of the university toward the great agricultural, horticultural and viticultural interests of the State has been recognized in thus placing within its hands the task of conserving the food supply and determining where the fault lies when there is an undue discrepancy between what the consumer pays and what the producer gets. The State University can with great propriety become an equalizer as well as a conservator.

NOTES and COMMENT

Mayor Thompson of Chicago has sued the papers for more than a million. They must have called him a patriotic American—or something else that he ain't.

As the price of beef lightens substitutes are sought. We had an excitement over whale steaks, which somehow failed to make a complete hit; and now from New York comes the information that the turtle is an excellent substitute. The turtle is not unknown out this way, but it has not made a reputation as a substitute for cheap meat. On the contrary, it has always been regarded as an aristocrat as a food supply.

An edifying picture is that of Champ Clark and Uncle Joe Cannon marching side by side, each carrying an American flag. The occasion was the Washington parade in honor of the conscripted army. Characteristic of the two notables is the fact that Speaker Clark strenuously opposed the draft, and that former Speaker Cannon is 84 years old.

The Kaiser refers to Riga as proof that God is still collaborating with him. The need of evidence really was beginning to be desperate.

Martin Kelly, once prominent in submerged political circles, admits a number of others into his class. Nearly all of them are gone, but their names are rescued from oblivion by the survivor, who includes them in the circle of "we reformers."

It is probable that the former czar has no guilty knowledge of the efforts to restore his dynasty. He is a long way from the scene, and perhaps his mail is censored. Any way his is not a personality to inspire uprisings. It looks as though the various revolts were planned as personal enterprises by some who think they are in advantageous positions.

The "untrammeled" press of Germany must have struck a period when its trammel was put on again, as there has been nothing from it since the chorus of denunciation of President Wilson on account of his answer to the peace proposal.

That stunt of running one locomotive head on into another was repeated this year at the State Fair. It no longer is a new trick, and never was very much of one. It must entail a considerable expense, which cannot be commensurate with results, and at this time, when the better attention of the communities are turned to conservation, might have been omitted without any violence to the general entertainment.

When Mexico feels itself outraged by German intrigue the limit is about reached. More and more, it is made manifest that any peace except on lines laid down by President Wilson is impossible. No sort of word promise would justify any country in trusting a government that has been detected in treachery and deceit in so many instances.

Uruguay, also, is moving against the common enemy. And though it has been the custom to regard Uruguay as a backwoods country, she has done what some of the forefront nations failed to do—grabbed interned ships before their crews had opportunity to disable them.

A despatch states that a troop train has been fired on in Ohio. Which is a reminder of the Mexican sort of thing, and too much like some recent experiences in San Francisco.

Cooks of the Romanoff palaces have formed a union, hired a lawyer and are suing the deposed czar for loss of employment and non-fulfillment of contract. The Russians are absorbing Western ideas at a galloping pace.

A despatch states that the German general, commanding the Eleventh Reserve Division has offered a reward of 400 marks for the first American soldier brought into his lines, dead or alive. The full name of the commanding general of the Eleventh Reserve Division should be promulgated throughout, the embattled hosts of the allies, and spread broadcast in this land, that he may be rightfully condemned and dealt with according to his deserts in the final adjustment, if he does not get what is coming to him before.

SPIRIT OF THE STATE PRESS

Ranchers in the San Fernando valley are reported to have been leaving their potatoes in the fields because they could not obtain more than \$1.50 per sack. Time was, not so very long ago, that that was a fair price.—Santa Rosa Republican.

One of the recent books, called "The Human Side of Trees," makes the statement that some of our sequoias are 400 feet and more in height—a perfectly absurd statement that is not borne out by facts. Lord knows our sequoias are sky-piercing enough without tacking an extra hundred feet on to them. The fact is, however, that the Mariposa Grove has a monarch that has been triangulated as 325 feet, the highest authoritatively measured tree in our Sierras. The Giant Forest has a tree that attains to 315 feet, but the big majority of the big trees are from 200 to 250 feet high.—Hanford Sentinel.

The manufacture of airplanes is likely to be a tremendous industry in California as soon as the proposed appropriation for aerial service equipment is passed by Congress. The chief airplane headquarters on the coast will be North Island, in San Diego bay, where temporary buildings are now being turned into permanent ones; but the principal part of the manufacture will undoubtedly have to be done in the plans around the bay. The making of flying machines of different types after the war will be as important an industry as automobiles are now, and California should get well established in the work while it is new.—Santa Rosa Republican.

REMEMBER, MY BOY, THIS IS OUR WAR.

TO MAKE THE WORLD SAFE FOR DEMOCRACY

PRISONERS STARVE

There are about 100 American prisoners in Germany, as the Red Cross figures it out. Most of these are civilians taken off sunken ships and a few ship gun crews. They are being so poorly fed that the Red Cross recognizes an urgent duty. These prisoners are getting insufficient food to keep them in health. Prisoners who have escaped tell deplorable stories and there is other evidence that prisoners of war in Germany are dying off rapidly. The British, Canadian and Australian prisoners depend wholly upon food shipped to them from London. Bread has been shipped into Germany from Bern in Switzerland for American prisoners by the Red Cross. The Red Cross has made an official statement of the case and an account of what it is planning to do. So far it has sent only bread. Food parcels and clothing will be sent, each food parcel containing ten pounds of meat, butter, sugar, jam, coffee or tea, salt, rice and dried fruit. In addition the American Red Cross will forward to Bern cheese, evaporated milk, codfish and mixed biscuit. "Binned goods," says the statement, "cannot be sent to prisoners, for Germany has made over the tin containers as hand grenades." The statement indicates that the condition of prisoners of other countries than the British and American is deplorable, and that Germany is making them suffer most from the scarcity of food. More than 50 per cent of one battalion of young and strong French prisoners have died of malnutrition or have been returned to France, by way or Switzerland, as incurable. We wonder if there is any real assurance that the parcels of food supplied by the Red Cross will reach those for whom they are intended.—Waterbury American.

THEIR GERMANY GONE

The executive board of the German-American Alliance placed itself squarely beside other patriotic organizations with a vote of loyalty to the government. This is an official recognition of the fact that there cannot be two loyalties, and that all citizens, adopted or native, must unite under one emblem. It also spells the sad end of Germany's far-flung hopes for aid in this country from millions of Germans. How much was boasted and how much sincerity in the assertions from abroad that serious civil dissensions would follow a declaration of war does not appear to be clear; the fact remains that loyalty of deed and for the most part, loyalty of word have characterized our fellow citizens of Teutonic extraction. The imperial mountain groaned and brought forth scarcely a mouse of sedition. "The Germany we knew," state the Alliance resolutions, "is but a memory"; that is to say, the Germany of liberal ideas, of revolution against autocracy, of our own Schurz. The driving force which expelled the best of our German-Americans from their fatherland, the bureaucracy backed by despotism, still controls. But the Alliance, all mankind hopes, is wrong when it says the Germany it knew is a memory merely. On the contrary the world trusts that, if it is a memory, it is a memory capable of rebirth. President Wilson put his faith in this liberal Germany when he wrote his recent answer to the Pope.—New York Evening Post.

OUR CANDLE BILL

Did you know that the candle bill of the United States for the present year will amount to \$20,000,000? We have been so accustomed to think of light in terms of electricity or gas that it will be a surprise that \$20,000 a day is spent in this country for candles alone. It was the general idea that candles are played out as an illuminant. Are they scant?—Los Angeles Times.

REFUSES TO BUDGE

At the very successful Newport horse show automobiles had to take to the garages. The motor car may be useful, but it has never succeeded in crowding the horse out of his place in the imagination. And even in the market the price of horses goes up all the time.—New York Evening Sun.

TODAY 20 YEARS AGO

Walter Morosco, it was announced, intended to erect a \$15,000 residence on his country estate, Geranium Place, Fruitvale. The furniture and fittings were to cost another \$50,000.

The residence of Mrs. W. D. Catton, just back of the Fabiola Hospital, barely escaped being burned to the ground and the valuable furniture was ruined by smoke.

Dr. John Morse and Dr. D. D. Crowley of the State Board of Health came to the conclusion that it was time to take steps to protect California from a possible invasion of yellow fever.

The local baseball teams in the California baseball tournament, including the Redlands Club of this city, were disappointed in the manner in which they were treated and stated they would play no more games unless they got forty per cent of the gross receipts.

Dr. Charles W. Wendt delivered his first lecture on the romantic composers before a large audience at the First Unitarian Church.

OAKLAND, CALIFORNIA, MONDAY EVENING, SEPTEMBER 17, 1917.

WHITAKER TO SEND PARENTS NEWS OF WAR

Herman Whitaker confided yesterday to the distinguished company of guests whom Mrs. Raymond Arthur Perry entertained at a garden tea his reasons for wanting to join the war correspondent's abroad. Whitaker leaves today for the front as a representative of The TRIBUNE. He is going primarily to be near the American boys who are fighting, and he tells the mothers and fathers who are faring and trusting that he will send back the story of what their sons are doing, how they are living—the things that they are feeling.

Whitaker promised the parents yesterday through the friends whom Mrs. Perry asked to meet him at the farwell tea that he would keep in his consciousness the longings and fears, and that he would send back to them the messages for which they were looking from the trenches, honestly and as best he might. By the bridge he is introducing a new viewpoint into the work of the war correspondent.

HONOR AVIATOR

SAN ANTONIO, Tex., Sept. 17.—With eight airplanes hovering above them, dropping floral offerings, members of the States army and hundreds of civilians paid tribute here to the memory of Lieutenant Allen F. House, Nineteenth Infantry, as the train bearing the body left here for Lake Charles, La., his home. Lieutenant House was killed in a motorcycle accident Thursday night.

GETS YEAR TERM

WASHINGTON, Sept. 17.—The department of justice has received a report from the United States attorney in New York City, stating that Homer H. Leep, formerly of Eugene, Ore., had pleaded guilty to the charge of impersonating an officer of the United States army and had been sentenced to one year's imprisonment at Atlanta, Ga.

Herman Whitaker Leaves for France To Represent Tribune on War Front

Author and War Correspondent to Be With Pershing

HERMAN WHITAKER, novelist, short story writer and war correspondent, left his home here today for New York, to proceed from there to France, where he will be the special representative of The Oakland TRIBUNE at General Pershing's headquarters.

Whitaker was war correspondent in Mexico and is a close personal friend of General Pershing. Pershing immediately suggested Whitaker's name when the question of having a special correspondent from California was taken up with him. The commander expressed the hope that Whitaker would be assigned to the work.

In handling the war material at the American front in France, Whitaker will have the rare advantages of having been a soldier himself, of being a descriptive writer of rare ability, of personal friendship with the American commander, and of personal and intimate knowledge of the men of the West, who compose a large portion of the American troops now in France and preparing to begin life in the trenches.

The achievements of soldiers from Oakland, Berkeley and Alameda, men whose names will have a familiar ring in the despatches cabled from France when they are printed here, will be given special prominence in Whitaker's accounts of the life in France. His special letters to The TRIBUNE will be one of the big features of the coming months.

Whitaker has had a life of adventure, a story that carries the romance

Herman Whitaker

of some of his own novels. In "The Planter" and "The Probationer" he has coined some of his own experiences into fiction with the grip of reality in its pages.

Born and educated in England, he saw service with the Second Battalion, West Riding Regiment, British army, from 1883 to 1886. He became a remarkable swordsman and was named fencing master of the regiment. He purchased his discharge and came to America in 1886, and became a pioneer in the Hudson Bay Company's territory, where he lived an adventurous life in the land made famous in fiction by Gilbert Parker in the "Pierre and His People" stories.

MAKES BRAVE STRUGGLE

In 1895 he came to California with his wife and children. It was a period of hard times and Whitaker made a brave struggle, working at all trades,

Will Watch Oakland, East Bay Boys for This Paper

and at the same time struggling to win his way into the charmed circles of fiction writers. Jack London had just broken his way by sheer force into the magazines, and he and Whitaker became fast friends, tramping, studying, writing and working together.

The realism and romance of his stories gained their acceptance by the big magazines and his first novel was accepted. Since then Whitaker has been recognized among the writers of the West. He made a study of Spanish and after preparing himself thoroughly went to Mexico in 1905 and 1906, bringing forth several strong novels and short stories as a result of his travels in Mexico, Central America and Yucatan.

WAS IN MEXICO

The novelist was special correspondent of several American newspapers in Mexico with Villa's forces in 1914. Later he was with the American expedition and became a personal friend of General Pershing.

Whitaker's home is at 716 Seaside avenue, Piedmont. He is a member of the Bohemian Club and has for many years been one of the leaders in the literary circles in the bay region.

One of Whitaker's sons, Percy Whitaker, is now a gunner on one of the American warships in British waters. Two other sons in Oakland are anticipating being called to army service.

Whitaker's elder daughter, Elsie, is Mrs. Xavier Martinez, wife of the well-known artist.

CHANGES AT INFIRMARY POSTPONED

That there will be opposition to the proposed dismissals of John Dignan, storekeeper at the county infirmary, and Dr. Minora E. Kibbe, visiting physician at the institution, was presaged this morning when Sam Donohue, secretary of the County Institutions Commission and secretary of the Building Trades Council, stated before the Board of Supervisors that he had not been present at the meeting of the commission when the changes were agreed upon and that he did not make a clear record.

Donohue's statement was made after a meeting before the Board of Supervisors. Robinson, president of the commission, asking that consideration of the proposed changes be continued for one week, inasmuch as he could not be present today. The request was granted, and Donohue then made a clear record.

SEEK ROAD EXPLANATION

The State Highway Commission is to be cited to send its chairman or a representative before the Board of Supervisors to explain why the pledge of the commission to complete certain highways in this county has not been fulfilled. The chairman of the commission in the Altamont Pass and the other from Warm Springs south remain uncompleted because material has not been delivered by the commission to the contractors.

Supervisor Joseph Kelley made the motion that an explanation be demanded. "When this county purchased a quantity of the highway bonds two years ago, the State Highway Commission pledged itself to complete certain roads," he said. "Was any promise made as to when this work was to be done?"

"There was no time limit specified," replied Chairman Murphy. "The commission simply said that it would complete the roads as soon as possible."

WILL CHANGE CROSSINGS

The dangerous railroad crossing between Livermore and Pleasanton, where several fatal accidents have occurred, is to be made safe by a change of the present grade crossing to either an overpass or a cut-and-cover crossing. The district attorney was authorized this morning to apply to the State Railroad Commission for permission to effect a separation of grades.

Bids for the furnishing of the Livermore Tuberculosis Sanatorium were received this morning from the John Breen Company, the Federal Furniture Company, Pack & Hille, A. Schleuter & Co., C. F. Weber & Co., D. N. & E. Walters, Nathan-Dohmann Company, Schleuter & Beecher and Frank Zambreski. The award will be made after the proposals have been passed upon by the county expert.

EMPLOYEES' UNION

WASHINGTON, Sept. 17.—At the opening session here today of the convention to form a National Industrial Employees' Union, President Gompers of the American Federation of Labor welcomed the delegates and offered his personal assistance and their organization. Delegates from local federal employees unions throughout the country were present. Representative Jeanette Rankin of Montana addressed the delegates and urged that the national union support the cause of woman suffrage.

PARTY TO CRIME?

CHICAGO, Sept. 17.—Flat charges that City Comptroller Edwin R. Pike knew all about the alleged "corrupt practices" of Francis A. Becker, contented to them and gave advice, were made here today by State's Attorney Hoyne. Becker's home and office were raided early Sunday and papers which Hoyne declares will furnish evidence to warrant prosecution of several city officials were seized. Hoyne also made public new letters written by Becker to Pike, former Police Chief C. C. Hooley and others.

WILL FACE TRIAL

Fred Lewis, proprietor of a local market, who was arrested Saturday night by Patrolman Carey for alleged failure to stop his automobile after striking Jake Baumgarten, former Coast League umpire, at Twelfth and Broadway, will appear before Police Judge Mortimer Smith tomorrow for arraignment. The case was called this morning and continued at the request of the defendant. Baumgarten stated that he will swear to a complaint charging Lewis with failure to give aid after an auto accident. He said that he is still suffering from the effects of the blow.

WORKERS BURIED

CLEVELAND, Sept. 17.—Eight men were buried in a conduit excavation this morning when tons of sand and paving bricks slid in on top of them. Rescuers got all the men out alive excepting Samuel Rest, who was smothered.

WHAT IS DOING TOMORROW

Civil Service Board meets, evening. Merchants' Exchange meets, evening. Art exhibit, Auditorium. Allendale Central Improvement Club, Mutual Hall, evening. Orpheus Club concert, Auditorium Theater, evening. Irish Republicans rally, Sacred Heart Auditorium, evening. Melanchton Temple social, Pythian Castle, evening. Rebekah Lodge dance, evening. History and Landmarks section, E. Hall, to hear Mrs. C. C. Crane, afternoon.

WHAT IS DOING TONIGHT

Fitchburg Social and Improvement Club meets, 722 East Fourteenth street, 8. Prof. W. L. Jepson speaks, Hillside Club, Berkeley. Ovi's dance, Masonic Temple, Berkeley. Oakland Circle sewing night, Pacific building. Colonel John B. Wyman circle entertains at Memorial Hotel. Vernon-Rockridge Improvement Club debates waterfront lease. Pantages-Charles Abner and vaudeville. Bishop-Freckles. Hippodrome-Vaudeville. T. & D.-Elsie Ferguson in Barbary Sheen. American-Jack and the Bearstalk. Kinema-Mary Pickford in The Little American. Franklin-Grafters. Biola Park-Inland Beach. Neptune Beach-Surf swimming. Lake Merritt-Boating.

WORK IS RESUMED

With all but five of their 300 employees at work, the Oakland Mazda Lamp Works, 1648 Sixteenth street, partially destroyed by a gas explosion last Friday in which five persons were seriously injured, resumed operations this morning.

WILL RAISE SPAN

QUEBEC, Sept. 17.—With thousands of spectators lining both sides of the street Lawrence, the great engineering feat of raising the central span of the Quebec cantilever bridge into 150 feet above the river was begun today.

WILL RAISE SPAN

Two previous attempts to put the span in position resulted in the loss of lives. Last September 14 men were killed when the span, the longest in the world, collapsed while being raised.

WHAT IS DOING TOMORROW

Civil Service Board meets, evening. Merchants' Exchange meets, evening. Art exhibit, Auditorium. Allendale Central Improvement Club, Mutual Hall, evening. Orpheus Club concert, Auditorium Theater, evening. Irish Republicans rally, Sacred Heart Auditorium, evening. Melanchton Temple social, Pythian Castle, evening. Rebekah Lodge dance, evening. History and Landmarks section, E. Hall, to hear Mrs. C. C. Crane, afternoon.

WILL VISIT ITALY

LONDON, Sept. 17.—Representative Medill McCormick of Chicago is on his way to Italy to visit the Isonzo front.

JOURNALISTS IN

SESSION IN SOUTH

LOS ANGELES, Sept. 17.—Problems which most puzzle the newspapermen today are those which puzzled him when the newspapers came into being. Harry E. Andrews, managing editor of the Los Angeles Times, said today in an address on "New Newspaper Problems" delivered before the twenty-ninth annual meeting of the Southern California Editorial Association.

"There ain't none," said Andrews, who discussed the subject in a vein of pleasantry, declaring that the news print problem was the most vexatious thing that troubled the first newspaper published in California; that the competition problem harassed the first newspaper printed in America; and that the libel suit problem got the second newspaper published in America into jail.

MAY RETAIN FUND

WASHINGTON, Sept. 17.—Secretary McAdoo told a delegation of Southern Congressmen today there was no need for alarm over the prospective withdrawal of \$110,000,000 of British funds now invested in cotton and farm lands. The government probably will ask Great Britain not to call for the money at the maturity of the loans now approaching.

WORKERS BURIED

CLEVELAND, Sept. 17.—Eight men were buried in a conduit excavation this morning when tons of sand and paving bricks slid in on top of them. Rescuers got all the men out alive excepting Samuel Rest, who was smothered.

Wilson Praises Macauley For Tribune's New War Cartoons

Here is the letter President Wilson wrote to Cartoonist C. R. Macauley:

My Dear Mr. Macauley: I am sincerely interested to learn of your new work on a series of cartoons to exemplify America's spirit in the war, and I bid you Godspeed in the enterprise. I know that the finest spirit and the most practiced execution will go into the work.

Cordially and sincerely yours, WOODROW WILSON.

Here is Mr. Macauley's answer to the President:

My Dear Mr. President: I thank you from the bottom of my heart for your generous letter of encouragement and commendation, written in these hours crowded with world tragedies. I shall labor mightily to fulfill the mission I have set for myself. Very sincerely yours, C. R. MACAULEY.

Macauley's Cartoons are appearing in The TRIBUNE.

Mount Lassen Has Rival Only 10 Miles Away

REDDING, Sept. 17.—A new volcanic vent, possibly a new volcano, was discovered in this vicinity today, when a dense column of smoke began to issue from the hills ten miles south of Mount Lassen, California's volcano. Heretofore all the California volcanic activities during the past three years have been confined to Mount Lassen itself.

The vent, opened today is a few miles south and east of Broken mountain, which is eight miles south of Mount Lassen. Observers declared today's eruption, which continued for two hours, was as large as any Mount Lassen ever staged. For two hours a column of smoke, issued from the volcano and rose to a height of 10,000 feet.

WILL RAISE SPAN

QUEBEC, Sept. 17.—With thousands of spectators lining both sides of the street Lawrence, the great engineering feat of raising the central span of the Quebec cantilever bridge into 150 feet above the river was begun today.

Two previous attempts to put the span in position resulted in the loss of lives. Last September 14 men were killed when the span, the longest in the world, collapsed while being raised.

KAUFMAN IS QUESTIONED AS ARBITER

The ethical and legal right of George C. Kaufman, mentor to Mayor John L. Davis and member of the Civil Service board, to continue as a member of the arbitration board which is hearing the controversy between the San Francisco-Oakland Terminal Railway and the Carmen's Union, probably will be called in question, it is stated today on most reliable authority. It is understood that formal complaint is to be made by representatives of the traction company that Kaufman has disqualified himself by making certain statements in an interview published in a San Francisco evening paper, and that only his reputation of the interview will prevent his equity being attacked.

Kaufman is quoted in the article as having said that the platform men should have \$350,000 a year added to the payroll, and that a six-cent fare is not necessary to insure such an increase. He is alleged to have said that the 35 cents an hour minimum, which the men are asking, is less than the amount common laborers get for eight hours' work, while the platform men work nine and ten hours as skilled and responsible employees.

The contention is made that Kaufman, by making such definite statements as these, has shown a bias that renders him unfit to render a decision as an arbitrator, and that he is ethically wrong in speaking as he did before the hearing has been concluded. It is said that an attempt will be made to disqualify him.

In the event that such an attempt is made, the decision as to whether or not there has been a disqualification presumably will rest with Kaufman's colleagues on the board, Paul A. Sinsheimer and John S. Drum.

It is pointed out that had either Sinsheimer or Drum made the statement accredited to Kaufman—or had ventured an opinion favoring a ruling for the other party to the controversy—that he would have disqualified himself as has Kaufman.

Expert testimony as to the conditions of wages and operating expenses of traction companies in Eastern cities will probably be given before the arbitration board which is hearing the controversy over wage schedules between the San Francisco-Oakland Terminal Railway and the Carmen's Union. It was learned today on good authority that Delos F. Wilcox, franchise and bond expert of New York, and Matthew Bush, president of the Boston Elevated Railway, may be called upon to give data as a basis for comparison with the local situation.

These experts and Paul Scharrenberg of San Francisco, who will be asked to testify as to the economic conditions in that city as met by the laboring men, are not to be presented as witnesses by either side in the controversy, but will be consulted as unbiased authorities. The members of the arbitration board, it is understood, are anxious to have the assistance of outside witnesses in forming judgment as to the justice of the demands of the platform men for increased pay.

The fourth hearing for the taking of testimony from carmen will be held this evening in the council chamber in the city hall. It is believed that the case of the carmen's union will be concluded by Wednesday evening at the latest. General Manager W. R. Alberger of the traction company stated today that he expected to be able to settle the case by Thursday, provided that the platform men did not finish before that time. As to the nature of the testimony to be presented he would make no statement.

DIES OF WOUNDS
PARIS, Sept. 17.—Paul Bentley of Chicago, a Harvard student, died yesterday at the front from injuries received on Friday when an exploded ink shell hit an ambulance he was driving. Carson Hicks of Eureka, California, another member of the American field service, who was injured at the same time, is progressing favorably.

BENEFIT CONCERT
The annual benefit concert for the East Oakland Settlement will be given on Thursday evening in Ebbell Hall. An interesting program has been prepared by Helen Colburn Heath, soprano; William Edwin Chamberlain, baritone; Olive Reed, violinist; Edgar Thomas, pianist, and Agatha Cummings Southern, reader.

Merritt Will Tell Ad Bureau About 'The Hoover Plan'

Ralph Merritt, federal food agent for the Pacific Coast district and until recently comptroller of the University of California, will speak on "The Hoover Plan" at a luncheon of the Ad Bureau of the Chamber of Commerce at noon tomorrow. He will explain what is being done by the Hoover food administration toward conserving the nation's food supply, and will deal specially with the food situation in the district under his jurisdiction.

Merritt is regarded as eminently fitted for his duties as one of the principal officers of the food administration. Before being appointed one of Hoover's assistants he was comptroller of the University of California for four years at a salary of \$4000 a year. He graduated from that university in 1907 and was private secretary to President Wheeler for two years.

Five persons met their deaths and more than a score were injured in motor vehicle traffic yesterday in the bay counties. The dead are: CAROL EWING, 2735 Durant avenue, Berkeley; EVELYN HACKETT, 2735 Durant avenue, Berkeley; CHARLES ERNST, 2228 Fulton street, San Francisco; FRED PEARSON, 4018 Nineteenth street, San Francisco; ALMA HEEGLER, Vallejo.

Ewing, a 19-year-old high school student, and Miss Hackett, a student in the University of California, were instantly killed at 7 o'clock last evening when an automobile in which they were riding with two friends slid and overturned on a curve between Pinole and Rodeo. The others in the machine—E. D. Harrington, 2331 Blake street, Berkeley, and Miss Isabel Bailey, of Harrison street, Oakland, were only slightly injured.

According to John H. Benson, of the Oakland Kluge Kar agency, who was close behind the machine, the accident was caused by the skidding of the wheels when Ewing drove too rapidly around a rather sharp curve in the highway.

TWO INSTANTLY KILLED.
"The car passed me at a rapid clip," said Benson, "and it had no sooner gone out of sight around the curve than I saw a cloud of dust arise. I found that the four occupants had been thrown about twenty-five feet. In the last turn the edge of the tonneau upset Ewing's neck and the running board struck the girl on the head."

Miss Bailey and Harrington were only slightly injured. They were brought back to their homes by Perry Scott, an employee of the Hercules Powder Company.

Charles Ernst was almost instantly killed when a machine in which he was riding was struck at Nineteenth avenue and Lincoln way, San Francisco by another car driven by Joseph de Martini, of 1809 Taylor street. The other nine occupants of the two machines were all injured, but none of them seriously. De Martini is alleged to have been under the influence of liquor. He is charged with manslaughter, and the same charge was made against Lester Moser, of 512 Clayton street, driver of the other car.

LITTLE GIRL DIES.
Alma Heegler, the seven-year-old daughter of Mr. and Mrs. Louis Heegler, of Vallejo, was instantly killed when the family automobile was struck by another car driven by Fred Wilson. Mrs. Heegler suffered fractures of both legs and internal injuries, which may prove fatal. Two other children of the Heegler family escaped injury.

Fred Pearson was hurled ten feet in the air when his motorcycle struck the rear end of a truck at Fourteenth and Sanchez streets, San Francisco. He died shortly after admission to the German Hospital.

Mrs. S. L. Deenan, of 293 Seventh street, San Francisco, was injured when her automobile was struck by a Municipal street car at Geary and Franklin streets. She received a possible fracture of the skull.

Robert Burns, of 2350 Briggs avenue, Alameda, had his right foot broken yesterday afternoon when his motorcycle collided at Seventeenth avenue and Foothill boulevard with an automobile driven by Fred Westfall, of 744 Santa Clara avenue, Alameda. Charles Tecklenburg, of 3255 Briggs avenue, 17 years old, who was riding tandem with Burns, had his right leg broken.

AUTO DEATH TOLL FIVE; MANY HURT

Five persons met their deaths and more than a score were injured in motor vehicle traffic yesterday in the bay counties. The dead are:

CAROL EWING, 2735 Durant avenue, Berkeley; EVELYN HACKETT, 2735 Durant avenue, Berkeley; CHARLES ERNST, 2228 Fulton street, San Francisco; FRED PEARSON, 4018 Nineteenth street, San Francisco; ALMA HEEGLER, Vallejo.

MAN ROBBED AT DOOR OF OWN HOME

The latest of the series of crimes which have startled Oakland residents within the past few days occurred shortly after 2 o'clock this morning, when Mike Goplik, 55, a peanut vender, was struck down in the doorway of his home, 418 Sixth street, and robbed of \$200 in coin and receipts for \$300. The hold-up was conducted so quietly that persons living in the neighborhood failed to hear any disturbance.

Goplik stables his peanut wagon in the rear of the premises. Shortly after 2 o'clock he looks the wagon in the shed and retires. Last night he followed his usual custom. As he was locking the door he received a violent blow on the head at the hands of some person who stood directly behind him. Before he could turn and grapple with his assailant he was beaten into insensibility. The bandit then rifled his victim's pocket and escaped.

FOUND BY POLICE; TAKEN TO HOSPITAL

Bruised and bleeding, the victim came to some time afterward and crawled to the sidewalk. There he was found by the police and taken to the Central Emergency hospital, where he was found to be suffering from lacerations of the forehead and contusions on the left side of the neck. Inspectors who went to work on the case have been able to find absolutely no trace of the man who perpetrated the hold-up or the weapon which he used. Goplik will recover.

Only a few hours before a daring daylight robbery was staged in the heart of the city and in plain sight of scores of persons who were passing at the time, when R. A. Harrison, 8221 North Griffin street, Los Angeles, had his pocket picked of \$400 at First street and Broadway while talking to a friend.

Harrison carries his money in his inside pocket. He had halted to speak to a friend when he had occasion to reach in his pocket. Then it was that he discovered his loss. How the money was abstracted remains a mystery. The victim attributes it to the adept work of an expert pickpocket. The police are skeptical and declare that they believe Harrison lost his money.

The two occurrences mark only a portion of a series of incidents which have occurred within the past few days that have terrorized residents in all quarters of the city. Several holdups, robberies, room thievery, burglaries and minor crimes show the presence in the city of an influx of criminals.

AUTO ACCIDENT

MYSTERY GROWS

While Mrs. R. W. Bruckett of Tracy, victim of an automobile accident near Livermore, lies unconscious and at the point of death in the Fabiola Hospital, her husband is unable to clear up the mystery surrounding the accident in which three companions of Mrs. Bruckett, a woman and two men, were also involved. After being unconscious and unidentified at the Livermore Emergency Hospital since early Friday morning, where she was taken by two men who did not leave their names, Mrs. Bruckett was identified last night by her husband, who was notified of the accident by a trail dispatcher at Stockton and who had his wife removed to the Fabiola Hospital.

In the car along with Mrs. Bruckett at the time of the collision were a Mrs. Winslow of Tracy and Eugene O'Rourke and Easmus Jensen of Midway. Mrs. Winslow was brought to the Livermore hospital with Mrs. Bruckett, but her injuries were not severe and she was later taken to her home in Tracy.

O'Rourke and Jensen, who, it later developed, brought the women to the hospital, were uninjured.

The collision occurred Thursday night as the party of four in Jensen's automobile were on their way to Livermore from Tracy. Another fast-moving car smashed into the Jensen machine, hurling it over an embankment. The driver of the second car did not stop to give assistance and is unknown.

PAPER IS FOUND

After leading the police a merry chase about the downtown streets last night looking for a "pocket," Jacob O'Sullivan, of 819 Filbert street, who complained that he had been robbed of a certificate of deposit for \$200, was finally searched by Detective Mike Clarke. Following the missing paper was found. Schilling was booked for alleged intoxication.

GOVERNOR HEARD

AUSTIN, Sept. 17.—For the third time in the present year Governor James E. Ferguson took the witness stand today in an effort to nullify charges brought against him looking toward impeachment.

SUFFERED TERRIBLY WITH SKIN TROUBLE CUTICURA HEALED

All Over Body and Face. Burned and Itched. Scratched and Became So Irritated Had to Remove Clothing.

"I suffered terribly for years from a breaking out and an awful burning and itching sensation all over my body and face. The itching was so intense that I scratched until my body became so irritated that I would have to remove my clothing three or four times a day. I could not work when the weather was warm and I could not rest at night. If I became heated I seemed to be worse."

"A friend advised me to use Cuticura Soap and Ointment, as they had healed her of a skin irritation. I immediately purchased the Soap and Ointment and now I am completely healed." (Signed) Mrs. R. A. Lassiter, 1112-41th St., Denver, Colo.

While Cuticura works wonders in most cases of skin troubles its properties are so mild and so delicately combined that it is also ideal for every-day use in the toilet, bath and nursery.

For Free Sample Book by Return Mail address post-card: "Cuticura, Dept. B, Boston." Sold everywhere. Soap 25c. Ointment 25c and 50c.

Sole, fillet, black skin off, lb.	15c
Sole, fillet, black and white skin off	12 1/2c
Striped bass, pound	20c

"LEFT BACK" IS A GENTLE HIT, SAYS PRISONER

When you get the "left back" after this just take it for granted that you are not wanted and that there is no use of trying to "but in" on any conversation or anything else.

That is what the "left back" means. Prosecuting Attorney William J. Hennessy drew forth this elucidation from John Marsh, an itinerant workman who appeared before Justice Aaron Turner today on a charge of molesting three women in the downtown streets Saturday night. It was claimed that Marsh had followed the women for more than an hour until one of them, Miss H. E. Copeland, slapped his face and attracted the attention of Patrolman Burbank who arrested Marsh. In court Marsh denied that he was "following" the women. He said that he met them three times, however, and overheard a remark, gave them the "left back."

PEACE ANSWER OF GERMANY TO BE HANDED POPE

ZURICH, Sept. 17.—The replies of the Central powers to the peace note of Pope Benedict XV will be in the pontiff's hands within twenty-four hours, said a dispatch from Rome today.

It is understood that the German answer, which represents the views of Bulgaria and Turkey as well, falls to give any detailed terms.

LONDON, Sept. 17.—Dr. Richard von Kuehlmann, the German foreign secretary, who is now visiting King Ludwig at Munich, called on the papal nuncio and handed him Germany's reply to Pope Benedict's peace proposal Saturday evening, according to the Berlin Lokal Anzeiger.

DISORDER GROWS

BUENOS AIRES, Sept. 17.—Railroad disorders are spreading. A bridge 50 yards long has been wrecked, tying up two lines and preventing the movement of troop trains. Heavy reinforcements of national troops have been sent to Rosario.

FIRE IS TOO LIVELY

Recklessness born of impatience because his fire wouldn't kindle caused Mose Trudlar, 1011 Fifty-sixth street, to doctor it with distillate. He sustained first and second degree burns on the face and hands, for which he was treated at the Rescuing Hospital.

HERE THEY ARE!
